The above is a picture of our new poultry house on our poultry farm adjoining Blair. It is 400 feet long, 20 feet wide, is electric lighted, has 3 hydrants, root cellar, store room for feed and loft for straw and is probably one of the most up-to-date big poultry houses in America.

Aye Brothers

Seeds, Trees, Plants, Pure Bred Poultry and Remedies

AYE BROTHERS

Blair {Seed Corn Center of the World} **Nebr.**

Our Responsibility

It is only fair that you should know our standing as responsible business men. We wish to refer you to any bank in Blair, any business man, laboring man, mechanic, professional man or any boy or girl in and around Blair. Look us up in Dun's or Bradstreet's.

Our Location

"Blair, Nebraska, county seat of Washington County—is to the CORN WORLD what the Red River of the North Country is to the potato world. Blair is the **Seed Corn Center of the World**. This is a just claim, for more seed corn is sold within a radius of twenty miles of Blair than at any other point on the globe. The highest quality seed and small grains known come from Blair. The soil is the pure Loess variety of Glacial drift and is just the same, no matter how deep you go, until you strike water. Total crop failure is unknown. The seed corn is sent all over the world.

"The firm of Aye Bros., which has been selling seeds and poultry at Blair for 23 years, is known all over the world. It is largely due to the persistence and far-sightedness of the Aye Brothers—John R. and Adolph—that Blair today holds the distinction of being the greatest seed corn center of the world. Both men were born and raised in Blair and they have stuck to their native soil. They had faith in its wonderful richness, and years of faithful experimenting have produced for them the highest quality of seed corn known. They receive orders for their seed corn, wheat and grass seeds from all parts of the world and hold high testimonials from state universities and farmers all over the country. Most of the prizes awarded year after year at corn shows are from corn from Aye Bros.' seeds."—From the Omaha World-Herald.

HOW TO SEND MONEY

When ordering, please send P. O. Money Order, Draft, Express Money Order, or Check. Don't send money if you can help it. There are reasons for this. Here is one of them. Sometimes we get letters where parties forget to sign their names, and we don't know whom to send goods to, but if a P. O. Money Order, Express Order, or Draft is sent, we can always tell to whom to send seed to. Please bear this in mind. But, if you can't get P. O. Money Order, Draft, or Express Order, of course send the money.

Send cash with order. If married women would use their husband's initials it would prevent trouble sometimes in correspondence. Single women should use the title "Miss" before their names.

WHAT'S IN A NAME?

Over at Blair, Nebraska, there is a firm by the name of Aye Bros.—John R. and Adolph. As to the pronunciation of this name, unless you hear it spoken by those who know, one might emphasize by using the letter A. This is wrong. It is just plain I, or Eye. For a quarter of a century they have been selling seed corn and field seeds and high grade poultry. While engaged in this business they have placed their town on the map as being the seed corn center of the world. Almost every state in the union has heard of or transacted business with this seed emporium, which is being recognized as the seed supply house of the middle West, the name being a household word in this section. To say Aye Bros. have an "Eye" for business is perhaps the proper way to express it, with such expression echoing back with repeated and increasing orders from year to year and that is part of what is in a name.—Above was taken from "Echoes from the Highway."

ABOUT PRICES

No one can tell exactly what the prices will be during the whole season, but we are getting out this catalog and price list, showing what the prices are now; and when you send order, if any seeds should go up or down, we will send you what amount your money will buy. These prices may remain during the whole season but are subject to change without notice.

Our Guarantee

Whenever you order from us and if anything is not exactly as we say it is, you can return it to us and get your money back. We go farther than that. If what you buy is not as good as you thought it ought to be, or if you **Have Changed Your Mind**, even then you can return it. We give you ten days to examine and test our corn and other seeds. We want to make money the same as you do, and we know that the easiest and surest way is to give satisfaction. We demand money with order, but we give every buyer the privilege after he buys anything from us to say whether or not it is worth the money, and if you think not, fire the stuff right back to us and get your money back and we will pay the freight one way. We want you to feel as safe as if you were right here making a personal examination. We know that if you came here and could see our corn or anything else that we have to offer, it would take but a minute to make a deal. We cannot think of anyone who ever came here looking for seed corn that did not buy from us. But we know that everybody cannot come and make a personal examination, and therefore we give you the privilege to keep our seed or send it back. Suit yourself. It is your money that you are spending and you certainly have the right to decide what you want to buy with it.

We are not perfect, and we know it. We sometimes make mistakes, and who is there that doesn't if they do anything at all. But when we do make a mistake, don't get mad and tell your neighbors how you have been skinned. Tell us your trouble and ninety-nine times out of a hundred we can fix it up all right. Just try, and see the quality of the seed we are sending out. We have one of the biggest high-class seed corn businesses in the world. No matter where you go, or how big a price you pay for your seed, you cannot find better corn than what you get from us.

We don't guarantee against floods, hail, frost, drought, etc. By that, we mean that we don't guarantee a crop.

You can keep any seed we send you ten days, test it in any way you wish and if for any reason it does not please you, return it within ten days and get your money back. Where can you get a stronger guarantee? We make it strong. We know that our seeds will please you. Our responsibility ends with the acceptance of seeds. No responsible firm can make a stronger guarantee.

TABLE OF POSTAGE RATES ON FOURTH CLASS MAIL. EFFECTIVE JANUARY 1, 1914.

Parcels weighing four ounces or less are mailable at the rate of 1/2 cent for each ounce or fraction of an ounce, regardless of distance. Parcels weighing more than 4 oz. will, on and after January 1, 1914, be mailable at the following rates, a fraction of a pound being considered a full pound.

Seed Corn

Prize-Winning Corn at National Corn Show Held at Columbus, Ohio.
Grown by Aye Bros.

Reasons Why You Should Buy Your Seed Corn From Us.

We send out only selected ears.

Our corn is handled five or six times before it goes to our customers.

We grow the best strains of corn in the world.

We live in the center of the corn belt. Blair is the seed corn center of the world.

Our corn matures early.

It is a heavy yielder.

It reproduces itself.

It wins prizes for others.

Our corn does as well for others as it does for ourselves.

We satisfy our customers.

We have the best of shipping facilities.

We ship the same day we get the order.

You can return seed if it fails to please you.

The State Experiment Station recommends us as reliable and as having the right type of corn.

We have the best in the world.

We have sent seed to farmers, stock men, seed men, elevator men, professors, dairymen, doctors, boys and girls, professors of Universities, to foreign countries, people just starting out as farmers, dealers, live stock auctioneers, breeders, show corn growers, editors, manufacturers, cheese makers, and railroad presidents, and they like it.

The object of this little book is to tell you what we have to sell, and you will find

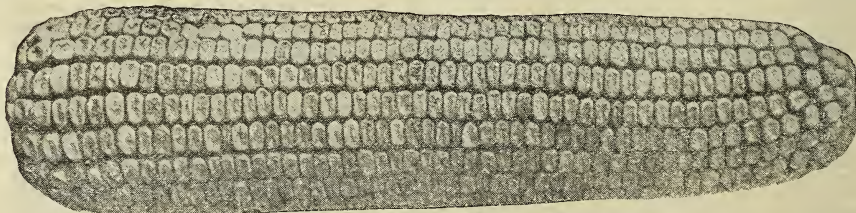

in the following pages as brief a description as possible of the things we are offering.

If there is anything you don't understand about our goods after reading this catalog just write us and we will answer you at once.

We want you to become one of our regular customers, for we believe that it will be mutually profitable. Let us hear from you whether you want to buy something from us or have something to sell.

REID'S YELLOW DENT.

Our Reid's Yellow Dent as grown in Washington County on our seed farms is without a doubt the best corn grown anywhere in the world. We will admit that in the past we have been partial to our kind of Reid's for we have seen the so-called Reid's Yellow Dent at other places that certainly did not look good to us. We used to pick the very deepest kernels for seed, but we have found, by actual experience, that it is not the best policy to follow. We have found that the medium grained ears are the best for seed. We are getting better and bigger yields every year by our method of selection. Our strain of Reid's is winning more prizes than any other strain of corn that we have any knowledge of. The above picture and the one on the side will give you some idea of the kind of seed we are se-

Reid's Yellow Dent.

lecting. We could fill this entire catalog with testimonials and lists of prizes that our corn has won for us and for those who have used our seed.

Price: \$3.00 per bushel in the ear or shelled; \$2.75 per bushel for 5 bushels or more.

Crated, 75c extra.

We have a few bushels of extra select Reid's Yellow Dent, Silver Mine and Nebraska White Prize that we are offering for \$5.00 per bushel, and we believe that you will be pleased with it.

Every spring we have calls for corn for breeding plots for an acre or so, and we have selected the very finest ears we have and will ship you ten ears (enough for an acre) for \$2.00. Each ear will be wrapped separately but we will not send less than ten ears.

Sample ears 50 cents, postpaid.

Sample shelled corn free.

BLAIR YELLOW

The Blair Yellow Corn is about ten days earlier than Reid's. The grains are rough and deep, medium in size, the stalks strong and considered by some of our farmers to be the best all around corn grown and one of the surest croppers. It shells out a high per cent of corn to the cob. It stands up well. We have watched this corn grown by one of our best farmers and he always grows a good crop, even in a very dry year, having raised 65 bushels when other corn was making only 15 bushels to the acre. This is fine feeding corn. The longer we know this corn the better we like it. If you want a yellow corn that is earlier than Reid's you cannot go wrong in getting some of this seed.

Price: \$3.00 per bushel in the ear or shelled; \$2.75 per bushel for 5 bushels or more.

IOWA GOLD MINE

In characteristics this corn is very much similar to the Legal Tender. It is very popular throughout the middle zone, and we have seen some big yields from this deservedly popular variety. The ears are of medium size, with kernels of uniform depth and fairly smooth.

Price: \$3.00 per bushel in the ear or shelled; \$2.75 per bushel for 5 bushels or more.

SILVER MINE

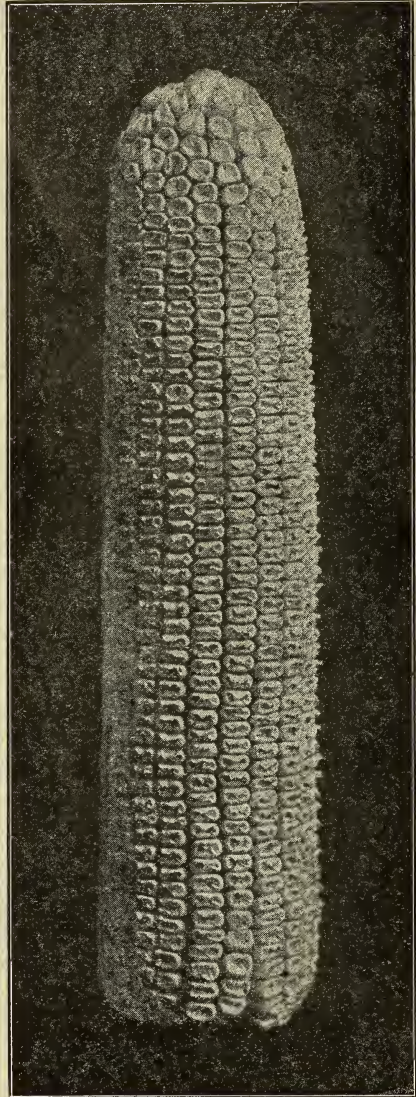

Silver Mine corn is the most popular white variety grown in the corn belt. It is early, yields heavy, has deep grains, stands up well and will probably grow more corn to the acre on thin land than any other variety. It yields enormously on heavy soil. The ears are not very high from the ground and make it a most desirable corn to husk. The quality is always good and has a great feeding value. The cob is white and not large. If you want to plant a medium early white corn get some of our strain of Silver Mine. We know it will please you. Some of our Blair farmers won't grow any other kind.

Price: \$3.00 per bushel in the ear or shelled; \$2.75 per bushel for 5 bushels or more.

NEBRASKA WHITE PRIZE

The cut below is a picture of a prize ear of the White Prize variety. This corn has been winning most of the prizes in the white classes. This corn is somewhat larger than the Silver Mine, but is ten days later. It surely is the corn for rich heavy soils.

Price: \$3.00 per bushel in the ear or shelled; \$2.75 per bushel for 5 bushels or more.

Nebraska White Prize Corn.

CALICO CORN

We have a limited amount of fine Calico Corn that we are offering for \$3.00 per bushel; 5 bushels or more, \$2.75 per bushel.

LEGAL TENDER

This is a yellow variety that has been extensively advertised. It matures in 110 days. The kernels are quite deep and of a dark golden color. The ears are medium smooth. When the corn is ripe the moisture leaves the ears very rapidly, making it possible to start picking corn early in the fall. If you have much corn we would advise planting half of it with this variety. The ears will stay on the stalks a long time. It is profitable corn to raise and shells out a good strong per cent of shelled corn.

Price: \$3.00 per bushel; \$2.75 per bushel for 5 bushels or more.

**EARLY VARIETIES
WHITE CAP YELLOW**

White Cap Yellow is a splendid corn and in some respects is similar to Blair White, but the kernels are very short and have a yellow color capped with white. The ears are long and slim and become quite large on good rich soil but will also make a fair sized ear on medium rich to poor soils. It is a 90-day corn and it surely is a good yielder for corn that matures that early. We have a limited quantity that we are offering either in the ear or shelled.

Price: \$3.00 per bushel in the ear or shelled; \$2.75 per bushel for 5 bushels or more.

PRIDE OF THE NORTH

This is a small variety of corn that matures in ninety days and is the best yellow corn to plant in the north or far west. It has a deep yellow grain, small cob and is used more than any other corn for replanting. It is also a good yielder. One man reports that he raised 65 bushels, but we never raised quite that much ourselves. We only plant a small acreage of this variety but we are always sure of ripe corn.

Price: \$3.00 per bushel; \$2.75 per bushel for 5 bushels or more.

NINETY-DAY RED

If you live in western Nebraska, western Kansas, in South Dakota, or if you want an early corn, you cannot find a corn that will do you more good than our early Ninety-Day Red. This is one of the finest varieties to plant for hogging down. Every hog raiser should grow a patch of this early corn, and turn his hogs into the patch about August. The best gains we ever make on a bunch of hogs is when we turn them into a patch of growing corn and let them harvest it. After the hogs are through with it sow winter wheat on the land and see what a big crop you will have. Our Ninety-Day Red has a red color with a white cob. It is a drouth resister. Get a few bushels for a part of your corn crop.

Price: \$3.00 per bushel; \$2.75 per bushel for 5 bushels or more.

Blair, Neb., The Seed Corn Center of the World

A woman over at Shenandoah, Iowa, has been paid \$10 by the Commercial Club of that city for suggesting an official slogan for that city, which has been adopted by the club. Here it is: "Shenandoah—the Buckle on the Corn Belt." While it may be very appropriate, it doesn't in any way compare with Aye Brothers' slogan, which they have advertised all over the continent in their seed catalogues and which, "Blair the Seed Corn Center of the World," has given Blair more prominence abroad than anything ever promulgated from this city.

(From Enterprise, August 6, 1915.)

SQUAW CORN

Blue and White Squaw corn grows dwarf and is one of the best varieties as a drouth resister. It is early (90-day) and the kernels are small and in color are white, blue and a mixture of blue and white.

Price: \$3.00 per bushel; \$2.75 per bushel for 5 bushels or more.

BLAIR WHITE

Here is a corn that we have been watching for the past two years, and from what we have seen we think it one of the best kinds of corn grown, and we believe it is the coming corn. It is of a fine white color. The ears are very long and the kernels are mostly smooth. It will ripen every year in this part of the country. The stalk is of medium height, stands up well and we like this variety so well we hope to be able to put out more of it next year. Although there was much seed corn in the country last year we could not supply the demand, but this year we will be better able as we had a good deal of this raised and don't intend to get swamped. It matures in about ninety days. One man reports that he raised 70 bushels.

We wrote the above lines about Blair White Corn a few years ago and at that time we thought it was the "coming corn" and got a lot of corn growers around Blair to plant some and up-to-date we have not heard anything but praise for Blair White Corn. One man reported 70 bushels per acre a few years ago. Last year Mr. Elza King reported that he grew 81 bushels of corn per acre and we bought all he had to spare and sold most of it for seed.

Mr. Reeves claims he raised 66 bushels per acre on very hilly land. Mr. Eakin says he plants Blair White Corn last and it is ripe the earliest in the fall and he starts to husk it first.

One man says he can plant Blair White Corn thicker than most varieties and get a good ear on every stalk. He says he had 5 stalks to a hill and a good sized ear on every stalk.

We can recommend this corn as a good corn to grow anywhere in the corn belt. Why not try a few bushels and have some early feed. Some varieties of corn put out by some seedsmen are we think entirely too late maturing for the average season.

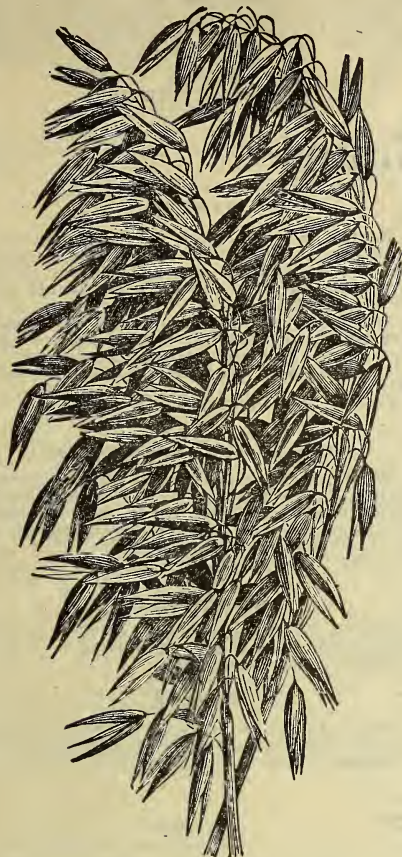

The kind of corn to plant is the variety that will produce the largest amount of good feeding corn per acre. Blair White won't disappoint you.

Price: \$3.00 per bushel; \$2.75 per bushel for 5 bushels or more.

BLOODY BUTCHER CORN

Lots of people like to plant some red corn and we have a nice supply on hand that we are offering for \$3.00 per bushel.

Oats

KHERSON

You should sow oats that are adapted to your locality and your land. If you have very rich land do not sow the long straw late maturing kind in the corn belt. What you need is some early maturing variety like the Kherson, and if you rotate your crop as you should, your land will soon be rich enough to grow from 85 to 125 bushels of corn to the acre, and then it is too rich for the late oats.

Officers of the State Farm at Lincoln have been at our seed house and say that our oats are the cleanest and purest Kherson oats they have ever seen. The Crowell Lumber & Grain Company of Omaha say that if all the oats were like our oats they could pay much more for it. If you will sow this variety, you will make money growing oats. Every grower of oats in the corn belt should be thankful to the Nebraska Experiment Station for introducing this variety.

We would not advise sowing Kherson oats on land that will not produce 25 bushels of corn per acre. Your land should be seeded down to clover when it gets as thin as that. We have the purest Kherson oats in the United States today.

This variety of oats was introduced into

this country from the Kherson district in Russia by the Nebraska Experiment Station, hence the name. This is without a doubt the best oats to sow in the corn belt, as it is early, does not rust or lodge, is a heavy yielder, weighs very heavy and as a nurse crop beats anything we have ever tried. The kernels are small, of a light golden color and very numerous on the stem and all stock like this oat better than any other variety, as it has a very thin hull. If you will compare these oats with any other variety by removing the hull, you will find that the Kherson has a larger amount of meat than most of the larger varieties.

We have shipped these oats to ten different states and have not had one word of complaint. Everyone has nothing but words of praise for them. Remember these oats come to you all re-cleaned and ready to put in the field.

Our Kherson oats has been treated for smut last year and this should be worth a whole lot to you.

Price: See Price List.

REGENERATED SWEDISH SELECT OATS

Almost everyone has heard and knows the merits of Swedish Select Oats. It is about a week later than the Kherson and in some localities is a splendid yielder. It does very well on medium rich soil. If you want this variety we can furnish you seed that will produce a fine crop of oats. The berry is big and it makes a fine oats to exhibit.

Price: See Price List.

WHITE SHONEN OATS

Here is one of the best white oats grown, and is a very popular variety. Some of the foremost authorities think this is one of the very best varieties and stands at the head of the list. We want you to try these oats, for we know that they will surely please you. We have been growing this variety for four years and are very glad that we added them to our list. The straw is stiff and stands up well, the grain is very white in color, is heavy and of excellent quality. If you are not satisfied with the oats you are growing and you want a white oat that will give satisfaction, send us your order for White Shonen.

Price: See Price List.

DANISH SIDE OATS

If you want a late oats, you will do yourself an injustice if you do not get some of this variety. It has very long heads, growing on one side, and does exceedingly well on thin land. This is the best late oats that has ever been grown here and has a place on most farms where a lot of oats is sown. If you wish to extend the time of cutting and harvesting, get some of our Danish Side Oats. If we had very thin and worn out soil on our farm we surely would grow this variety.

Price: See Price List.

RUSSIAN GREEN OATS

A variety that is about ten days later than Kherson, a little longer in the straw and yields about the same as Kherson, but the kernels are somewhat whiter in color. For poor soil it is better than Kherson because the straw is longer.

Price: See Price List.

WHITE KHERSON OR IOWA 103

Here we have a variety of oats that has all the good qualities of the Kherson and has a whiter color and lots of growers claim that it will outyield the Kherson oats. It will have to go some if it does. We did not grow this variety but we had

it raised and the grower likes them very much. It might pay you to get a few bushels to try. We are always on the lookout for better varieties, and we know that this is a good oat and that you will like it.

Price: See Price List.

Other Grains

SWEDISH SPRING WHEAT

Most farmers of our county gave up sowing spring wheat until this variety was introduced from Sweden, but since its introduction to this country many of our farmers prefer it to the winter varieties. Last year this wheat proved to be a very profitable crop. It stands up better than any other wheat we have ever seen. This is the best spring wheat we have any knowledge of, and you can't afford to sow any other if you intend to sow spring wheat. Our wheat is re-cleaned and ready for the seeder.

Price: See Price List.

IMPROVED TURKEY RED WHEAT

Write for our quotations and description of this wheat.

MACARONI WHEAT

We have a limited amount of Macaroni Wheat and you should send in your order early. This variety grows tall, has broad leaves. The heads are large and heavily bearded. Kernels are large and hard. It stands drouth better than any other variety of wheat. It is a spring wheat and should be sowed early.

Price: See Price List.

BARLEY

Barley is a splendid nurse crop and on medium to rich land is a money maker. We would not advise sowing barley on poor soil but it is surely a profitable crop on rich soil.

The grain when ground makes splendid hog and cow feed. It stands up well and live stock like the straw. Sow from 1½ to 2 bushels to the acre on well prepared soil.

Price: See Price List.

WINTER RYE FOR PASTURE

Winter Rye when sown in the spring makes a fine pasture during the summer. When sown in the spring it does not head. It makes a better pasture than oats, wheat, etc., for it stands more abuse.

Price: See Price List.

FLAX SEED

Sow ½ to ¾ bushels per acre. Can furnish good clean seed at any time.

Price: See Price List.

SPELTZ

Sow about 90 pounds per acre. Can furnish good clean seed at any time.

Prices: See Price List.

Clover

COMMON RED CLOVER

Everyone should sow common red clover in his small grain every spring to restore the fertility of the soil. It makes fine pasture, excellent hay, and yields from one to four bushels of seed per acre, and when the land is again planted to corn we have known an increase of 100 per cent the first year. Sow from 8 to 15 pounds per acre, but when sown with timothy from 5 to 8 pounds is enough. 60 pounds to the bushel.

See Price List.

MAMMOTH RED CLOVER

On very poor soil we would sow the Mammoth clover. It grows very rank and is a better soil restorer than the common red. It makes great pasture but sometimes the hay is too coarse if sown on too rich soil. If you want a crop of seed you should pasture Mammoth clover until about June 1st and then take off your stock. Let it stand and the heads will form during the dry season.

See Price List.

ALSIKE

If you have low, wet land, sow Alsike clover. It will thrive on land that is almost a swamp and on places where red clover will not catch. It will in time dry out the land on which it is sown and sweeten it so that other clover can be grown. It is fine to sow on thin sandy soil and on stony hillsides where red clover will not catch. The seed is very small and it only requires from 4 to 7 pounds to sow an acre. Alsike certainly makes a fine pasture for all kinds of stock.

See Price List.

WHITE CLOVER

White clover is the hardiest of all clovers and is a good kind to sow on lawns and on pastures. It does not need a lengthy description because it is so familiar to everyone.

See Price List.

**SWEET CLOVER
WHITE SWEET CLOVER**

The white sweet clover is a biennial plant and grows very tall and branching, sometimes as tall as 12 feet. It seems to grow anywhere on any kind of soil and

like the alfalfa plant takes nitrogen from the air and stores it in the soil, leaving the land in excellent shape for the succeeding crops. Can be sown almost any time and can be used either for pasture or hay. Sow about 20 pounds to the acre.

See Price List.

YELLOW FLOWER SWEET CLOVER

This is a biennial sweet clover and we can furnish you some choice seed. See Price List.

Can also furnish annual yellow sweet clover. See Price List.

Alfalfa

Every farmer should have a patch of alfalfa. It is without a doubt the queen of all grasses.

We have grown it on our farm for over twenty-one years and know that no crop pays so well as alfalfa. It starts early in the spring and grows faster than any other grass. On our farm we pasture it with hogs all the year around and cut it three or four times, getting from three to four tons per acre. The hay is worth, ton for ton, as much as bran, and when bran is worth \$20 per ton, you can figure with three or four tons per acre that it is quite a paying crop. It is the biggest paying crop on the farm. You can't say too much in favor of alfalfa.

In the years we have been growing alfalfa, we have never lost a crop of hay; that is to say, no matter how badly it is put up stock will greedily eat it.

It beats anything we ever saw. Land that is so poor that it won't grow 25 bushels of corn per acre will raise three tons of this beautiful, nutritious green hay per acre. Every animal likes it—horses, cows, steers, sheep, hogs, and chickens. It is the most remarkable of all plants. The finest kind of honey is gathered by the bees from the blossoms of this plant. If anybody tells you any kind of

a story about alfalfa, believe him, for it is a wonderful plant.

As a plant to conserve the fertility of the soil alfalfa has other plants "skinned a mile." It will grow on most every kind of soil, except land that is covered with water for any length of time or sour soil. The alfalfa roots go down into the ground 20 feet or more, and when these roots are cut, the decaying roots act as a sub-soiler, and this kind of land will hold more moisture and raise larger and better crops of corn than any we ever saw. These things we know from actual experience.

Most of the writers on alfalfa growing say that from 20 to 25 pounds should be sown to the acre. We obtained a perfect stand when we sowed the seed in the late summer, with only 8 pounds to the acre, but would advise sowing about 15 pounds to the acre providing it is evenly distributed over the ground.

We have never failed to get a stand whether we sowed in the spring or in the late summer, but there is one thing you should always do and that is to thoroughly prepare the soil with a disk and harrow and then sow good seed and slightly cover it. Then you can be practically sure of a good stand.

See Price List.

Grass Seed**BROME GRASS—(Bromus Inermus)**

Is a native of Europe and Asia and is a hardy perennial grass. It is one of the most valuable grasses that has been introduced into this country. It is very early in the spring and stays green very late in the fall. There is no grass that will stand as much abuse and drouth as Bromus. Can be cut two or three times a year and all kinds of stock like the grass and hay. Sow 20 to 25 pounds to the acre either in the early spring or fall.

See Price List.

ORCHARD GRASS

A valuable grass for pasture and hay. It is early and splendid for permanent pastures, as it stays green late in the fall. Does well in shady places like groves, orchards, etc. 14 pounds to the bushel.

See Price List.

CANE SEED

As a catch crop there is nothing equals cane for hay. It can be sown as late as July and no matter how dry a season you may have you can depend upon cane to make plenty of feed. Yields enormously. It makes the finest kind of hay to winter horses on.

See Price List.

TIMOTHY

We always sow timothy with our common red clover. When the clover dies, which it does the second year, the timothy is at its best. We mix our seed with the clover when we sow it. Timothy makes fine hay and is splendid for pasture. We have some very choice seed to offer you this year.

See Price List.

KENTUCKY BLUE GRASS

Grows almost anywhere and is sown for lawns and pastures. No better seed than Kentucky Blue Grass for lawns. We have some fine seed that is clean and new.

See Price List.

ENGLISH BLUE GRASS (Meadow Fescue)

An excellent pasture grass and succeeds almost anywhere on low ground and high soils. It is very early in the spring and stays green late in the fall.

See Price List.

RED TOP

Here is a grass that is at home and at its best in low, swamp places and thrives there. It is not a hard grass like timothy, and when put up as hay makes excellent hay for cattle. A mixture of Alsike, Blue Grass and Red Top makes excellent pasture on bottom lands.

See Price List.

WHITE KAFFIR CORN

Kaffir corn drilled in at the rate of 5 to 10 pounds per acre and cultivated like corn will yield from 40 to 50 bushels to the acre. It is valuable for all kinds of stock and especially chickens. It grows somewhat as cane and heads out big bushy heads made up of white grains like cane. See Price List.

GERMAN MILLET

We have a large quantity of home grown millet which is very choice. Our German millet will make from four to five tons of hay per acre and if left for seed will yield as high as 60 bushels. Millet seed makes as fine a chick feed as you can find, and if you grow chickens it will pay you to raise German millet for seed. It can be sown as late as July on places where other seed has been lost or washed out. Besides it makes an excellent fodder. See Price List.

NEW ERA COW PEAS

This is the earliest cow pea known and is the best for the northern states. Fine fertilizer as it puts nitrogen into the soil. Can be sown after the early oat crop is taken from the soil and will fertilize your soil for next year's crop and at the same time give you a lot of feeding stuff. See Price List.

DWARF ESSEX RAPE

Rape is an annual and belongs to the cabbage family. When sown early in the spring it furnishes a great deal of green feed all summer for the hogs and is excellent for that purpose. Can be sown in the cornfield at the last cultivation and will make a lot of feed for the hogs, sheep or cattle when they are turned into the stalks when the husking is over. See Price List.

SUNFLOWER

A small patch of sunflower will make an immense amount of chicken feed. They like it better than most grains and it is good for them. Be sure to plant a small patch of sunflowers. See Price List.

MILO MAIZE

For grain drill in rows 3 feet apart, 3 to 6 lbs. per acre. For fodder sow $\frac{3}{4}$ to 1 bu. per acre. Price on application or see price list.

FETERITA

Feterita is similar to White Kaffir corn except that it stands drought better and is 30 to 50 days earlier. Of the non-sacharine sorghums it has become the most popular.

See Price List for prices.

BROOM CORN

Some farmers make a lot of money out of broom corn. Can be grown anywhere where good corn grows and should have similar cultivation.

See Price List for prices.

BUCKWHEAT

We handle two varieties, the Japanese and Silver Hulled Buckwheat and can send you nice clean seed at price list prices.

ALSIKE AND TIMOTHY

During the last year or two we have been selling an awful lot of the above mixture and if you have low or damp land we don't know of a better combination than alsike and timothy and as a rule we can offer you the two combined at a cheap price, for the reason that they are threshed together and the seeds being the same size they cannot be separated, so we sell the two together. The proportions of seed are about one-fourth to one third alsike and the balance timothy.

See Price List for prices.

SUDAN GRASS

Sudan Grass is an annual and belongs to the sorghum family. It originally came from Sudan, Africa. It is claimed it will stand drought well. Sudan grass has beyond a reasonable doubt solved the hay question, for it grows readily in all sections of the country and as it matures in less than 90 days, it can be sown whenever there is danger of a shortage in the hay crop. Sow about 15 or 20 lbs. broadcast if wanted for hay and harvest like millet. If wanted for seed sow 3 to 6 lbs. per acre in drills 3 ft. 6 in. apart and cultivate like corn.

For prices see Price List.

Can also furnish the following seeds:

Common Millet.

New Siberian Millet.

Japanese Millet.

Hog or Broom Corn Millet.

Hungarian Millet.

Early Fortune Millet.

Pearl Millet or Pencillaria.

Teosinte.

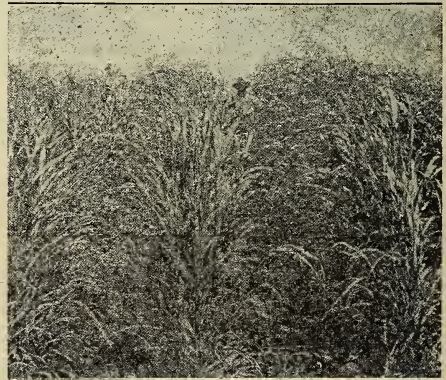

Bermuda.

Perennial Rye Grass.

Winter Emmer.

Soy Beans.

See Price List for prices.

Sudan Grass

Potatoes

RED RIVER EARLY OHIO.

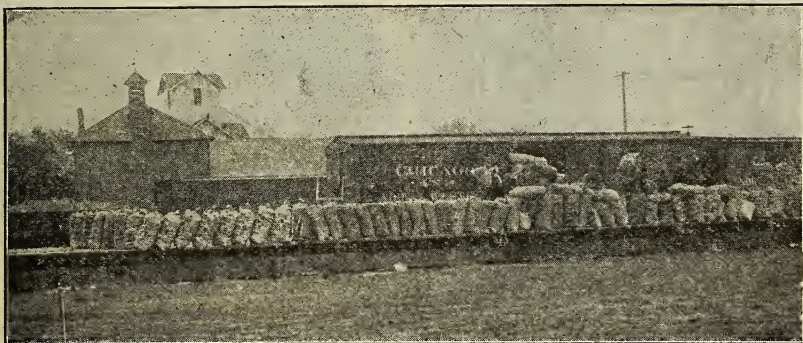

Potatoes run out quicker than any other seed and for that reason a change should be made occasionally and seed should be gotten from the north, especially from the Red River country. We don't handle any-

thing but Red River Early Ohio, except when people want other seed. We have had potato growers tell us that our northern-grown seed does better than their home-grown seed. Our stock is selected for seed.

See Price List.

One Morning's Shipment.

Garden Seeds

We like the Garden and Flower Seed business. Probably the reason for this is that our seeds have given such good satisfaction, but why shouldn't they? We handle only the best that can be grown or that money can buy. Some of the largest and best growers of garden and flower seeds furnish us with fresh seed every year. It is true we don't ask as much for our seeds as some seedsmen but we don't need to. We live in a town of 3,000 inhabitants and our taxes are not as high as in some of the larger towns; we pay no rent and are not trying to get rich in a few years, but we want our business to gradually increase as the cost of living increases, and we feel sure it will if we can only get new customers to try our seeds one year. We know you will be pleased with them and become a regular customer.

We pay postage on all garden and flower seed except as otherwise specified in catalog.

Send to us for your garden and flower seeds and we believe that you will never regret it. It is impossible to get better seed from any seed house, no matter what you pay. Of course we don't want you to think that no one else sells good seeds for we know of lots of good reliable seed houses handling seeds that come from the same growers that we get our seeds from.

We will always send some free packets as a premium. If you send us a dollar for 20 five-cent packets of garden or flower seed you will get 30 or more.

Our business is now large enough to justify us in reducing prices on most all of our garden seeds and nursery stock. We want a large volume of business, for the more business we have the cheaper we can sell. We want to sell enough so we can do our own importing and buy in car and ship loads. You will help yourself by helping us.

All prices are subject to change without notice but we believe that the prices following will remain during the whole season.

Artichoke

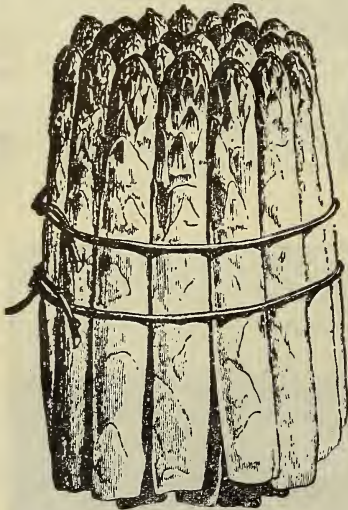

Large Green Globe. The standard variety. Produces large, globular heads, scales, green shading to purple.

Pkt. 5c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

1 oz. to 50 ft. in drill; 5 to 6 lbs. per acre.

Asparagus

Conover's Colossal. This is the standard variety with large, green stalks and comes very early in the spring. It is very tender. Packet 5c; oz. 10c; $\frac{1}{4}$ pound 20c; pound 60c.

Palmetto

Palmetto. Here is a variety that is very large and is grown much for market purposes. Is very tender when cooked. Packet 5c; ounce 10c; $\frac{1}{4}$ pound 20c; pound 60c.

Beans

WAX OR YELLOW PODDED VARIETIES

Golden Wax.

This is a very handsome bean. The pods are a dark rich golden yellow color and perfect shape. It is a good market and family bean. By mail, postpaid, packet 8c. Pint 25c. Quart 45c. Prepaid.

Currie's Rust

Proof Wax.

The vines are very vigorous, the foliage abundant and absolutely rust proof. It is early, productive and cannot be surpassed as a market variety. Price by mail, postpaid, packet 8c. Pint 25c. Quart 45c. Prepaid.

Dwarf Black Wax.

This is one of the

earliest varieties, producing large and

saddle-backed pods. Bushes are very

erect and uniform. Prices by mail, post-

paid, packet 8c. Pint 25c. Quart 40c.

Prepaid.

Golden Wax

DWARF GREEN PODDED BEANS

Stringless Green Pod. The best green podded bean on the market. It is very early, extremely vigorous and produces an abundance of brittle, stringless pods.

Packet 5c; pint 25c; quart 45c; postpaid.

EXTRA EARLY RED VALENTINE

An old favorite and has only recently been surpassed by the Stringless Green Pod. Very prolific and the pods are fine and round and very tender while young. It is as early as the preceding one, but the pods are not quite as long nor as straight.

Packet 5c; pint 25c; quart 45c; postpaid.

EARLY YELLOW SIX WEEKS

The pods are long and flat and are of a bright green color. Plants form erect bushes.

Packet 5c; pint 25c; quart 45c; postpaid.

Burpee's Bush Lima. A bush form or true, large Lima. A good yielder. A large, well-filled pod.

Henderson's Bush Lima. Grows in bush form and is very productive and has a delicious flavor. The bush is erect and does not need support. The beans are good green, shelled or dry. It is about two weeks earlier than the climbing limas and produces a crop from the 10th of July until frost.

Price of above two varieties is: Packet 5c; pint 25c; quart 45c; postpaid.

Lazy Wife Pole Bean. This is one of the most popular pole beans, is very productive and easily cooked. The pods are a medium dark green and are from four to six inches long. The pods stay rich, tender and stringless until nearly ripe, and when ripe make fine winter shell beans.

Price: Packet 5c; pint 25c; quart 45c; postpaid.

POLE LIMA BEANS

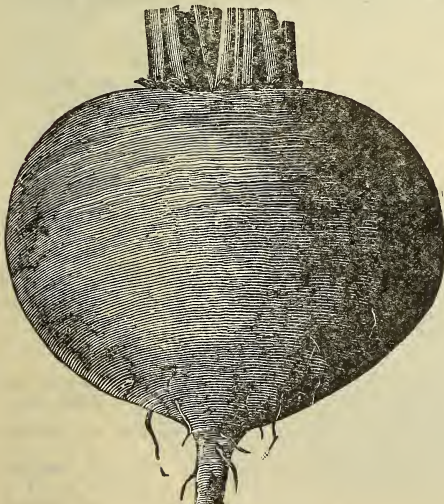

King of Garden Lima. This variety is especially valuable where space is limited. A few hills will supply a good sized family. The pods are enormously large and the plant bears until frost.

Large White Lima Bean. An old favorite and of fine flavor.

Price of the two above varieties: Packet 5c; pint 25c; quart 45c; postpaid.

Beets

Crosby's Egyptian. This is the earliest of all varieties. Shaped very much like

Early Blood Turnip

a turnip. Best forcing beet for those who use frames and is very popular with market gardeners. This is a splendid beet for the family table. Packet 5c; ounce 10c; pound 80c.

Early Blood Turnip. This is a popular beet that will grow anywhere. Will sell on the market ahead of any other beet. It is shaped much like a turnip. Deep blood red, tender and sweet and of a good size. Good early and late. Packet 5c; ounce 10c; pound 75c.

Half Long Red. This is one of the best for winter use. Always smooth and the flesh is rich, dark red, very sweet, crisp and tender and never becomes woody, even when portions are exposed. This is an excellent kind. Packet 5c; ounce 10c; pound 75c.

STOCK BEETS

Long Red Mangel. This is the very best stock beet grown. It grows to an enormous size and will "pile up" in your cellar like stove wood. It is especially liked by milch cows and poultry in the winter time. Packet 5c; pound 50c.

Golden Tankard Mangel. Here is a kind that is preferred by many feeders. Although it does not grow so long as the Red Mangel it is thicker. The flesh is yellow orange color. Grows partly out of the ground and is a good yielder. Packet 5c; pound 50c.

SUGAR BEETS

Klein, Wanzleben or Red Top Sugar Beet. Price: Same as for Stock Beet.

Broccoli

Purple Cape. Packet 5c; ounce 35c.
Large White. Packet 5c; ounce 35c.

Brussels Sprouts

Packet 5c; ounce 15c; ¼ pound 50c.

Cabbage

Early Jersey Wakefield. We supply a good deal of this seed to early planters.

Early Jersey Wakefield

Ours are of the very earliest and very large for such an early variety. Heads are large and solid and have few outside leaves. Packet 5c; ounce 20c; pound \$2.50.

Henderson's Early Summer. A good variety to follow up the Early Jersey Wakefield. It is about ten days later, but much larger in size and will stand on the ground much longer without bursting. Packet 5c; ounce 20c; pound \$2.00.

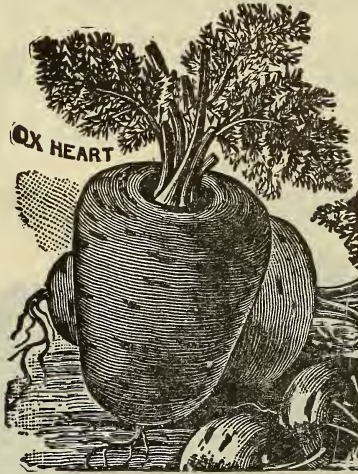

Other early varieties of Cabbage seed like Early Spring, All Seasons, Early Winingstadt, Allhead Early and others at same price of Henderson's Early Summer.

Late Premium Flat Dutch. This is the old standard kind and known to everybody and is very popular. Grown very extensively for sauer kraut factories. Heads are very large, solid and good keepers. Packet 5c; ounce 20c; pound \$2.00.

Hollander or Danish Baldhead. One of the best late cabbages grown. Heads are round, good sized, solid and very fine grained and have but few outside leaves. A splendid keeper, crisp and tender. Packet 5c; ounce 25c; pound \$2.75.

Carrots

Oxheart. Of all carrots this is the most popular for table use. It is an early short carrot and has a very fine flavor. It is very popular for bunching for the early market and always commands a fancy price when put up this way. The flesh is bright orange and very fine grained. Packet 5c; ounce 10c; pound \$1.00.

Danver's Half Long. This is the kind that is very popular with gardeners. It is medium size and of good quality. It is grown very extensively in the East for the New York City trade, especially in the New England states. Packet 5c; ounce 10c; pound \$1.00.

Cauliflowe

Extra Early Erfurt. This is a very reliable variety. It is a sure header and very popular in Europe and with Eastern gardeners. Packet 10c; ¼ ounce 50c; ounce \$2.00.

Danish Snowball

Danish Snowball. A standard variety, very early, small, pure white, a sure header. Packet 10c; ¼ ounce 60c; ounce \$2.00.

Celery

White Plume. This is the earliest and the most tender celery of all. Has a very delicate flavor. Stalks and portions of inner leaves white. Price: Packet 5c; ounce 20c; pound \$3.00.

Golden Self Blanching. This is the most popular variety on the market. It is a medium early dwarf compact habit and branches easily to a yellow waxen color. Packet 10c; ounce 75c; pound \$10.00.

Chicory

Chicory. Large Rooted or Coffee. This is the standard. Packet 5c; ounce 10c; pound \$1.25.

Collards

GEORGIA SOUTHERN
Packet 5c; ounce 10c; ¼ pound 30c.

Corn Salad

BROAD LEAVED
Packet 5c; ounce 10c; ¼ pound 25c.

Cress

CURLED.
Packet 5c; ounce 10c; ¼ pound 20c; pound 50c.

Pop Corn

WHITE RICE

A very handsome variety; kernels long, pointed, resembling rice. Very prolific and fine for popping. Does not pop as large as Queen's Golden, but is more tender and better flavor.

QUEEN'S GOLDEN

Produces ears in great abundance on stalks nearly six feet high. It pops perfectly white.

Prices for Pop Corn: Packet 5c; pound 15c.

Blue Pearl. A smooth variety having very large blue kernels and has a very rich flavor when popped. Packet 5c; pound 15c. It is worth trying.

Sweet Corn

Stowell's Evergreen. This is the leading standard variety for home use. Best late variety. Our stock has been carefully selected and should you order this kind we know we will be able to give you the best of satisfaction. The ears are very large, fine foliage and both ear and foliage remain green for a long time. Price, by mail, postpaid, packet 8c; pint 20c; quart 35c.

Golden Bantam. For home use for the sweetest flavored sweet corn get Golden Bantam. The grain is a creamy yellow and ripens into an orange color. Price, by mail, postpaid, packet 10c; pint 20c; quart 40c.

Mammoth White Cory. The largest extra early sweet corn. The ears are white cobbled, covered with large, white grains of good quality and very much larger than the old Cory. Price, by mail, postpaid, packet 8c; pint 20c; quart 35c.

Country Gentlemen. A very high quality corn, very sweet, shoe peg type, grain set zig-zag on cob. Having no rows, this makes an excellent variety to grow where worms bother the ears. Price, by mail, postpaid, packet 8c; pint 20c; quart 35c.

Special prices on larger quantities.

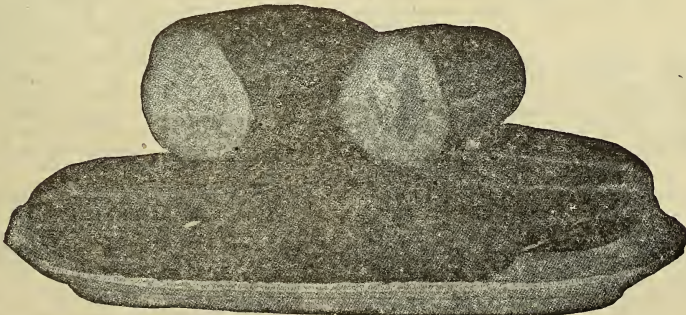

Cucumbers

Long Green Improved. This is the most popular cucumber grown for general use. We have seen them grow ten or twelve inches long. Flesh is solid and of delicate flavor. The skin is green and holds its color for a long time. Packet 5c; ounce 15c; ¼ pound 35c.

Chicago Pickling. Here is a variety, that is used almost exclusively by pickle factories. Medium sized, straight and short. Just the kind to plant if you want fine pickles. Package 5c; ¼ pound 35c.

Davis Perfect. This is one of the best cucumbers grown, both for forcing and out-of-doors. It is slim and symmetrical in shape and has a dark, glossy color, changing to white, without any white except when ripe. It has very few seeds, making it a fine cucumber for table use. Packet 5c; ¼ pound 35c.

Other varieties like Cool and Crisp, Everbearing, Early Cluster, Early Frame, Arlington White Spine, etc., at above prices.

Long Green Improved

Endive

Green Curled. The dense mass of finely cut leaves in center blanch readily; 16-18 inches across.

Green Curled

Ever White Curled. Very light colored leaves, which are crisp and tender; the most attractive sort; 14-16 inches in diameter.

Either variety: Packet 5c; ounce 10c; ¼ pound 30c.

Egg Plant

Improved New York Purple. This is the best variety we know of. It is early and a sure crop. The fruit is oval and purple in color. Packet 5c; ounce 40c; ¼ pound \$1.50; pound \$5.00.

Garlic

Pound 90c, postpaid.

Kale or Borecole DWARF GREEN GERMAN

Sow in the spring for "sprouts" or "greens." Hardy, prolific, flavor similar to cabbage; desirable in every garden. Packet 5c; ounce 10c; ¼ pound 25c.

TALL GREEN CURLED OR SCOTCH

This is one of the most popular varieties. It is very hardy and is much improved by frost. Two feet high. Packet 5c; ounce 10c; ¼ pound 25c.

Kohl-Rabi VARIETIES

Early White Vienna. The earliest and best for forcing. Packet 5c; ounce 20c; ¼ pound 50c.

Early Purple Vienna. Both Vienna Kohl-rabis are very tender and excellent for table use. Packet 5c; ounce 20c; ¼ pound 50c.

Leek

LARGE LONDON OR SCOTCH FLAG

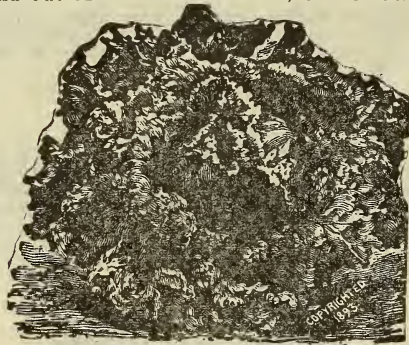

This leek, aside from being valuable for soups and salads, when blanched, makes an excellent dish if sliced and cooked. Packet 5c; ounce 15c; $\frac{1}{4}$ pound 50c.

Lettuces

Philadelphia Butterhead. Produces fine large heads of extra quality. Is very crisp and tender, sure to head and of quick growth. Good for forcing and out-of-doors. Resist heat well. Packet 5c; ounce 15c.

Hanson's. This is the best curled lettuce. It is a dark green outside and a creamy white inside. The leaves are curly and very tender. Packet 5c; ounce 15c.

Black Seeded Simpson. Very large leaves, crisp and remains in good condition a long time before running to seed. Makes very large heads. Fine for forcing and out-of-doors. Packet 5c; ounce 15c.

Black Seeded Simpson

Grand Rapids. A very profitable variety. Largely used in green houses and fine for this purpose. A splendid shipper. Packet 5c; ounce 15c.

Musk Melons

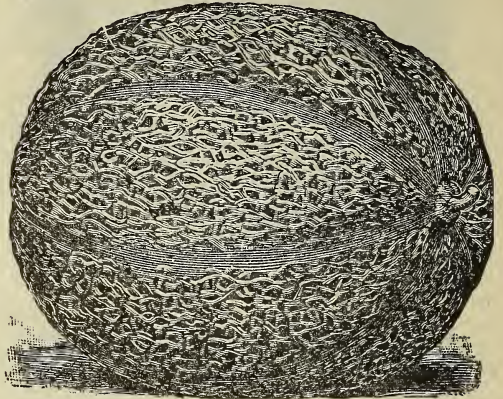

Extra Early Hackensack. The most popular variety grown by market gardeners in the vicinity of New York. It is large in size, round in shape and flattened at the ends. It is very delicately flavored and wonderfully productive. Is ten days earlier than the Hackensack or Turk's Cap. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 40c; lb., \$1.00; postpaid.

Emerald Gem. This variety is unequalled for home use, but does not stand shipping well. It is one of the earliest to ripen and has a delicious flavor. The flesh is a salmon color. This is a very productive melon. Pkt., 5c; oz., 15c; lb., \$1.00; postpaid.

Bay View. This is the largest good melon grown. Deep ribbed and coarse netted. Has a dandy flavor, very productive, has firm flesh and does not rot quickly. Pkt., 5c; oz., 15c; lb., \$1.00; postpaid.

Rocky Ford. First grown in Rocky Ford, Colo., and now has a national reputation. It is the Netted Gem type, oval in shape and grows from four and one-half to five inches in length. It has a most delicious flavor and is very fine and smooth grained. Has flesh of light green color throughout. Our seed comes from Rocky Ford, Colo., where carloads are shipped out every day. Pkt., 5c; oz., 15c; lb., 80c; postpaid.

Peach or Garden Lemon. The fruit is about the size of a large peach, oval-shaped and of a bright orange yellow color, somewhat russeted. When it first ripens it is quite hard and has very little flavor, but they soon become mellow, not sweet and have a rich flavor, but for sweet pickles, pies, or preserving, they are superb. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 45c; lb., \$1.20.

Rocky Ford

Banana. An entirely distinct variety, bearing long slender, banana-like fruit. Flesh deep salmon color, thick and of good quality. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Burrell Gem. Of the same size and shape as the well-known Rocky Ford, but the flesh is of a rich golden color and most delicious flavor, but still solid. An abundant yielder. Meat is thick and fine grained. Pkt., 4c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 90c; postpaid.

Watermelon

Sweet Heart. This is an excellent melon for early use. Vine is vigorous and very productive. Fruit is large, oval, very heavy, and uniformly mottled light and dark green. The rind is thin but firm. Flesh is bright red, firm, solid, very tender, melting and sweet. Pkt., 5c; oz., 10c; lb., 65c.

Ice Cream. This is a fine melon for home use, but the rind is too thin for shipping. It is one of those kinds that just melt in your mouth. Very early, white seeds, medium sized and flesh has a bright scarlet color. Pkt., 5c; oz., 10c; lb., 60c.

Halbert's Honey. A fine melon for home use, but does not stand shipping long distances. The flesh is a beautiful crimson color, of luscious flavor and entirely free from strings and considered by many to be the finest melon grown. They grow very large. We had one at the state fair that weighed fifty-three pounds and was the largest melon on the fair grounds. The quality is just excellent. They are oblong in form, dark green in color and break easy in handling. Pkt., 5c; oz., 10c; lb., 70c.

Kleckly Sweet. It is considered by many to be the best melon grown. It is very large and early. Does not ship well on account of the thin rind. But for home use, if you have an early market, it cannot be beat. Pkt., 5c; oz., 10c; lb., 70c.

Tom Watson. Is an improvement on the Kleckly Sweet. It is very large. The

flesh is slightly lighter in color than the Kleckly. This melon will ship with perfect safety, as it has a thick tough rind. Pkt., 5c; oz., 10c; lb., 75c.

Mushrooms

PURE CULTURE SPAWN

1 brick, by mail.....	40c
2 bricks, by mail.....	70c
4 bricks, by mail.....	\$1.30

Mustard

White. Best for salad and culinary purposes. Oz., 4c; ¼ lb., 12c; lb., 40c.

Southern Giant Curled. Highly esteemed in the south where seed is grown in fall and plants used early in spring as a salad. Pkt., 4c; oz., 8c; ¼ lb., 25c; lb., 80c.

Okra

White Velvet. Here is the best variety we have been able to find. The pods are round, very attractive and smooth and have a fine flavor. Pkt., 5c; oz., 10c; lb., 65c.

Onions

Danver's Yellow Globe. A very handsome, round-shaped variety of large size. Thin yellow skin. Has a mild white flesh which is fine grained. This is a good keeper. It ripens early and is a money-maker. Our seed of this variety is grown in California. Pkt., 5c; oz., 15c; lb., \$2.00.

White Portugal or Silver Skin. The standard white variety for general use. The onions grow to good size and are the best of keepers. The flesh is mild and sweet. Pkt., 5c; oz., 20c; lb., \$2.50.

Southport Red Globe. This is a nice looking variety. Is medium early, grows large, skin is deep red color, flesh is mild and tender. Pkt., 5c; oz., 15c; lb., \$2.00.

Prizetaker. This is the largest onion that is grown anywhere. It is globe shaped, has a kind of straw color, flesh is white. In flavor this onion is mild and delicate. Pkt., 5c; oz., 20c; lb., \$2.00.

Mammoth Silver King. The largest of all white onions. It is of attractive form, flattened, but thick through. The skin is silvery white, sweet and tender. Matures early and is of uniformly large and fine shape. Pkt., 4c; oz., 30c; ¼ lb., 60c; lb., \$2.00; postpaid.

Parsley

Moss or Triple Curled. This is a distinct English variety. It is unsurpassed for garnishing and flavoring. Pkt., 5c; oz., 15c; lb., \$1.25.

Parsnips

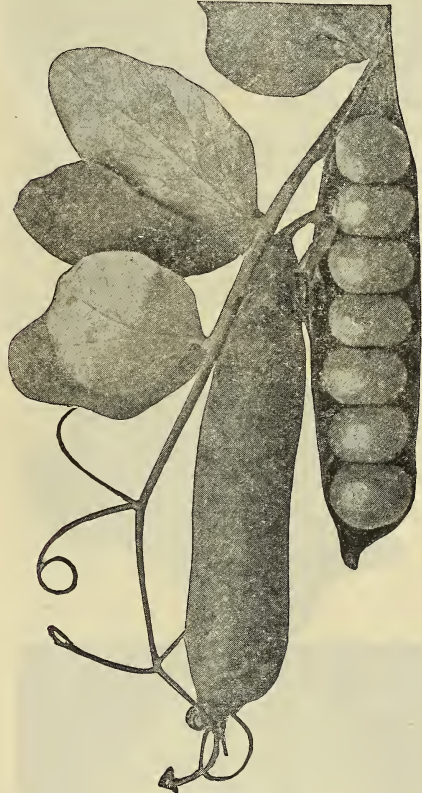

Hollow Crown. This is a very choice sort and very desirable because of its excellent form and whiteness of skin and flesh. It is firm and smooth and of the very best quality. Very productive. Pkt., 5c; oz., 10c; lb., 75c.

Improved Guernsey. Roots are not so long as the Hollow Crown, but of greater diameter. Very smooth, fine grained and of excellent quality. A heavy cropper. Price same as Hollow Crown.

Peas

Smooth Variety, Alaska. Here we have the earliest pea known. They grow about two feet tall and have lots of dark green pods on the vines. The pods are rather small. Most all of the pods can be picked at the first gathering. Price by mail, postpaid, pkt., 8c; pt., 30c; qt., 50c.

Wrinkled Varieties, Nott's Excelstor. This pea grows about ten inches tall and bears very heavy if the season is favorable. It is very sweet and has a delicious flavor. It is a dwarf variety. Price, by mail, postpaid, pkt., 8c; pt., 30c; qt., 50c.

American Wonder

American Wonder. This is the earliest wrinkled pea. Grows from eight to ten inches tall. It is very much like Nott's Excelstor, except that the pods are much larger. It is particularly adapted to family use. Price, by mail, postpaid, pkt., 8c; pt., 30c; qt., 50c.

Peppers

Ruby King. Very large growing and best known of all varieties. Grows to be four by six inches in size. Ripens into a ruby red color and is very pleasant to the taste. Pkt., 5c; oz., 30c. Our seed of this variety is of the very best.

Pumpkins

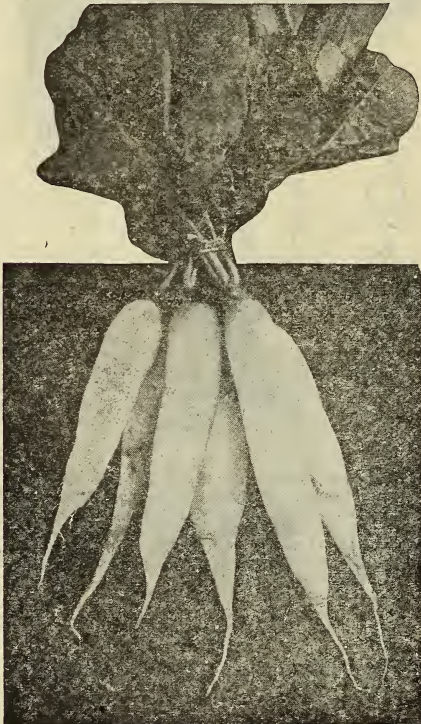

Small Sugar Pie. This is the best pumpkin to use for pies "like mother used to make." The fruit is quite small, round, but very prolific. The skin in color is a deep orange yellow. This pumpkin is a splendid keeper. Pkt., 5c; oz., 10c; lb., 70c.

Common Field Pumpkin. An excellent variety for canning. It is a great yielder. Good for milch cows and hogs. Fine to plant in corn. Mostly round in shape. Pkt., 5c; oz., 5c; lb., 40c.

King of Mammoths. This is the kind you see at the state fairs when you see a good big one. You can raise the big ones yourself if you will use the right kind of seeds. Over 100 tons has been reported to the acre. Flesh is very rich and of bright orange color. Has a fine flavor. Pkt., 5c; oz., 15c; lb., \$1.25.

Radishes

Crimson Giant Globe. We like this variety better than any other radish grown. The roots become about twice the size of other varieties that are grown for forcing, but do not become pithy and hollow. This radish develops roots six to eight inches in circumference and twelve to eighteen weigh a pound and still they remain firm, crisp and mild. The flesh is white. Pkt., 5c; oz., 20c; lb., 80c.

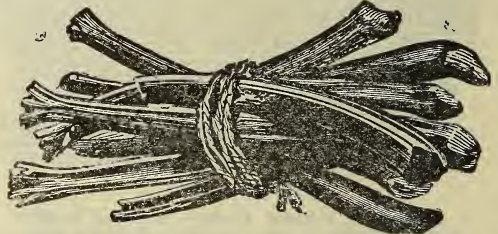

Icicle Radish

Rosy Gem. This is one of the earliest sorts. Globe shaped. The color is a bright scarlet, with white tips. Of excellent quality. Pkt., 5c; oz., 10c; lb., 75c.

Icicle. The finest white radish grown. Pleased customers have brought us in many samples they raised from our seed as a show of appreciation and you may be sure they are fine. This variety is very early. They are almost transparent. Pkt., 5c; oz., 10c; lb., 80c.

Black Spanish Winter Long. This is a black skinned radish. It is very large with a clear white flesh and sweet. This is an excellent keeper and if stored in dry sand in the cellar will keep all winter. Pkt., 5c; oz., 10c; lb., 60c.

Rhubarb

Rhubarb or Pie Plant. Victoria. A very popular variety. Pkt., 5c; oz., 10c.

Salsify or Vegetable Oyster

Mammoth Sandwich Island. Grows uniformly to an extra large size. The root is pure white and of superior quality. Pkt., 5c; oz., 15c; ¼ lb., 40c.

Spinach

Bloomsdale. (Savoy.) The earliest of all and one of the best; the leaves are numerous, curled and wrinkled. Oz., 5c; ¼ lb., 10c.

Squash

Summer Crookneck. A splendid summer variety and is "right on deck" for the early market money. It is very productive and the fruit is of fine quality. Many tell us that there is no superior summer squash. Pkt., 5c; oz., 10c; lb., 75c.

Warty Hubbard. This is a new strain of the Hubbard. Quality is very choice and you will find this kind to be an excellent keeper. The flesh is very sweet and delicious. Pkt., 5c; oz., 15c; lb., \$1.25.

Mammoth Chill. This is the biggest squash grown and if you want to take a squash to your county fair get some of this seed. It is a very profitable kind to grow. They grow to weigh over 200 pounds sometimes. Pkt., 5c; oz., 15c; lb., \$1.25.

Tobacco

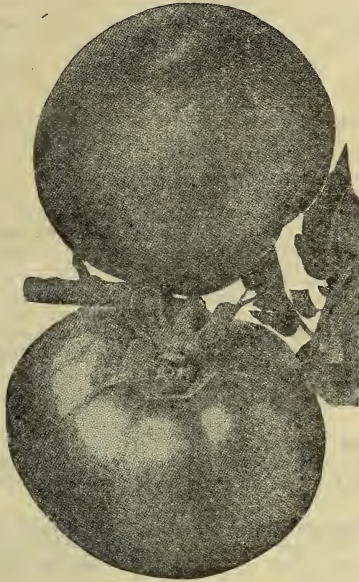

Havana. Pure Cuban grown seed. When grown in this country commands a high price as cigar stock. Pkt., 5c; oz., 30c; ¼ lb., \$1.00.

Connecticut Seed Leaf. Best adapted to the climate of the Middle and Northern states, as it is more hardy and endures the cold better than the tender varieties grown in the South. Pkt., 5c; oz., 25c; ¼ lb., 75c.

Tomatoes

Earliana. This is without doubt the earliest bright red tomato in cultivation. The tomatoes are a deep scarlet and grow closely together in clusters of five to eight. They are of medium size (the desirable size), smooth and solid. The plants are quite hard and have rather slender branches, bearing an abundance of fine tomatoes. The close dwarf habit of growth makes this a very desirable variety. It is especially valuable as it produces fruit when the prices are highest. If you want an early variety you can get nothing that will beat this kind. Pkt., 5c; oz., 25c.

June Pink. This tomato is like the Earliana except in color, which is pink. Pkt., 5c; oz., 35c.

Earliana

Dwarf Champion. Some seedsmen advertise this tomato as a tree tomato. The bush stands up, even when filled with fruit. The fruit is smooth, good quality and has a purple color. Pkt., 5c; oz., 30c.

Ponderosa. The Giant among Tomatoes. The fruit is extra large and fine for slicing. If you want Big Tomatoes, plant Ponderosa. Same price as Earliana.

Small varieties like Golden Queen, Yellow Plum, Red Plum, Yellow Pear, Yellow Cherry, Red Cherry or Ground Cherry Tomato seed at same prices as Earliana.

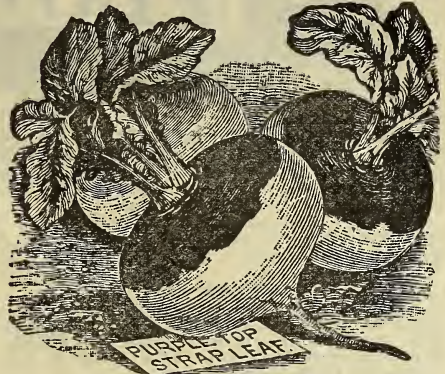

Ruta Bagas or Swedes

American Purple Top. Tops very small; bulbs large, skin purple above, yellow underneath; flesh golden yellow, fine texture, sweet and of richest flavor; desirable for table use and stock feeding. Pkt., 5c; ¼ lb., 15c; postpaid.

Skirving's Purple Top Yellow. Quite productive; flesh yellow and sweet flavor, shape oblong. Pkt., 5c; ¼ lb., 15c; postpaid.

Turnip

Purple Top Strap Leaved. This is the standard turnip. It is equally good for either early or late planting. It is round, flat, good sized, small top with few leaves;

flesh very fine grained and of good flavor. Pkt., 5c; oz., 10c; lb., 60c. Write for prices on large amounts.

Early White Milan. Very early, tender and sweet. White in color. Pkt., 5c; oz., 10c; lb., 90c.

Aromatic, Medical and Pot Herbs

- Anise. Pkt., 5c; oz., 10c.
- Balm. Pkt., 5c; oz., 25c.
- Borage—Gurkenkraut. Pkt., 5c; oz., 15c.
- Caraway—Kuemmel. Pkt., 5c; oz., 30c.
- Catnip or Catmint. Pkt., 5c; oz., 30c.
- Chervil. Pkt., 5c; oz., 15c.
- Coriander. Pkt., 5c; oz., 10c.
- Dandelion—Loewenzahn. Pkt., 5c; oz., 25c.
- Dill. Pkt., 5c; oz., 20c.
- Horehound. Pkt., 5c; oz., 20c.
- Hyssop. Pkt., 5c; oz., 20c.
- Lavender. Pkt., 5c; oz., 15c.
- Rosemary. Pkt., 5c; oz., 40c.
- Rue. Pkt., 5c; oz., 15c.
- Sage. Pkt., 5c; oz., 15c.
- Saffron. Pkt., 5c; oz., 20c.
- Savory. Pkt., 5c; oz., 20c.
- Sorrel. Pkt., 5c; oz., 20c.
- Sweet Basil. Pkt., 5c; oz., 15c.
- Sweet Fennel. Pkt., 5c; oz., 10c.
- Sweet Marjoram. Pkt., 5c; oz., 15c.
- Sweet Thyme. Pkt., 5c; oz., 30c.
- Wormwood. Pkt., 5c; oz., 20c.

Vegetable Plants in Season

Our vegetable plant business is in charge of an expert gardener and plants are packed very securely, but we do not guarantee safe arrival of plants, but we hear of very few complaints.

After a long careful study of the wants of our patrons we have compiled the following list of flower seeds and have been careful to select those we know will do well on the farm and small city lots. These seeds are of the best strains and obtained from only experienced growers. They are the kind that are not so delicate that you spoil them by looking at them.

We have marked the Annuals with the letter A, and the Perennials are marked with the letter P. The annuals bloom and die the first year. The perennials live and bloom a number of years. The following are 5c packets:

ASTERS. (A)

Victoria Mixed. One of the most handsome asters in cultivation is the Victoria. The flowers are large, perfectly double. Fine pyramidal form. We have a fine strain of these. Packet, 5c.

BALSAM. (A)

(Lady Slipper or Touch-Me-Not.)

Double Mixed. A new mixture of the most popular kinds. Hundreds of flowers on each plant. All beautiful colors. Packet, 5c.

Camelia Flowered. Resemble the camelia. Are of unusual size and perfect in shape. All beautiful colors with white dots. Packet, 5c.

CHRYSANTHEMUM. (A)

Annual Mixed. These are showy and favorite garden flowers. Much used for cut flowers. Bloom in the summer time. All colors. Packet, 5c.

Marguerite Mixed. These beautiful flowers bloom about four months after sowing. Good indoor and out. All colors. Packet, 5c.

CALLIOPSIS. (A)

Mixed. We have selected the choicest of these beautiful flowers for this collection. We know these will please you. Packet, 5c.

CARNATION. (A)

Popular favorites, which are deliciously fragrant; colors extremely rich and beautiful, if protected will live over winter.

Margaret. Dwarf habit, blooms in a few months from seed. Mixed, packet, 5c.

CANDYTUFT. (A)

Mixed. Here is a mixture that will please the most fastidious. Fine for cut flowers. They are hardy annuals and easily raised. Packet, 5c.

HOLLYHOCK. (P)

Double Mixed. Start the seeds in a box and transplant to your garden May 1st. Very beautiful. A great variety of colors. Packet, 5c.

MIGNONETTE. (A)

Giant Matchett. Vigorous dwarf growth. Spikes are large. Sweet scented red flowers. Cut flowers from this plant will last two weeks. Packet, 5c.

NASTURTIUM. (A)

Best Mixed, tall. A dandy climber for porches and verandas. A great variety of colors. If you have an unsightly fence get some Nasturtiums and cover it. It makes a fine sight. Packet, 5c.

Dwarf Lady Bird. These make fine edgings for a bed. Will grow on the poorest

soil. Orange, bright scarlet striped. Packet, 5c.

PINKS. (A)

Chinese Mixed. These are all old favorites. Should be in every garden for they are very easily grown. Packet, 5c.

SWEET PEAS. (A)

America. This is a clear scarlet flower on a white ground. Our pea seed is new and will do fine anywhere. Packet, 5c.

Captain of the Blues. A beautiful flower of a purplish-mauve color. Packet, 5c.

Blanche Ferry. This is a very early sweet pea. A beautiful pink and white flower. Packet, 5c.

Eckford's Hybrids. Many beautiful shades and will certainly not fail to give satisfaction. Packet, 5c.

Spencer's Mixed. Packet, 5c.

The following varieties are 10c packets:

DAHLIA. (P)

Fine Double Mixed. If sown in the spring will blossom the first year. Magnificent large flowers of the richest shades. Packet, 10c.

PANSY. (A)

Bugnot's Giant Mixture. Enormous size and circular form. Velvety with rich blotches that run in veins to the edge. Packet, 10c.

Trimardeau Mixture. We have selected this mixture because of the rich colors and the very true and beautiful flowers. Packet, 10c.

PETUNIA. (A)

Mixed. The best of the older varieties. We have selected the ones that have been received the most favorably by all flower lovers. Packet, 10c.

PHLOX DRUMMONDI. (A)

Large Flower, White. Pure white. Very showy and easily managed. Phlox is a great favorite. Packet, 10c.

Large Flower, Mixed. This in a bed will make an endless display of varied colored flowers. Pinch the flowers back when small and they become very bushy. Packet, 10c.

VERBENA. (A)

Mammoth Mixed. A mixture of the largest flowering verbenas. Very large truss. This selection has been made for the purpose of pleasing. Packet, 10c.

Choice Mixed. From the best varieties. Packet, 10c.

SWEET WILLIAMS. (P)

Double Mixed. Florets are double and full centered. A choice collection of the very best seed. Packet, 10c.

Trees, Shrubs, Vines, Bushes and Plants to Make the Home Grounds Beautiful and Profitable

We have often said that we had all the fruit trees and vines on our farm that we needed but when spring approaches we get the fever and plant trees, plants or shrubs of some kind, and we find that people are a good deal alike and other people are doing the same thing; but the price of trees, etc., has kept lots of people from setting out an orchard. If you will look over the following prices you will find them very reasonable. You can get 100 three and four foot apple trees of the popular varieties for 10 cents each.

By taking grape vines in 100 lots you can get them for \$6.00 per 100.

Give us your nursery order and we will treat you right.

We handle only first-class stock and we guarantee our trees, plants, etc., to arrive at destination in good shape. We only advertise a few varieties, but we have anything you want. This catalog is our only agent and by looking over our prices you will find they are cheaper than sold by a great many tree agents and our quality is the very best. We pay transportation charges on orders amounting to \$10.00 or more within 500 miles of Blair.

APPLES

We have the following varieties: Duch-ess of Oldenberg, Red June, Yellow Trans-parent, Grimes Golden, Jonathan, Wal-bridge, Wealthy, Winesap, etc.

If in the market for tree seeds write us what kind you want and we will make you prices.

Pure Bred Poultry

We have been in the pure bred poultry business over 25 years and during that time have sold thousands of birds and tens of thousands of eggs to customers all over the United States, Canada and Mexico and most of our customers come back year after year which proves that we must be giving satisfaction.

A quarter of a century ago we started selling Barred Rocks and the demand for other varieties has increased until today we are selling almost 50 varieties.

Over 200 different families are helping us produce enough poultry and eggs to supply the present demand.

We have the largest salesroom for pure bred poultry in the state. It takes over 225 individual coops in which to exhibit our poultry for the trade.

Adjoining Blair we have a 14 acre poultry farm with a building 400 by 20 feet, probably the largest in the state. It is up-to-date in every respect; it has three hydrants for city water, electric lights, double walls, swing doors, open front.

We believe we are in better position than ever to take care of our trade. We have been advertising Blair as the "Seed Corn Center of the World" and if the poultry business keeps on it can be truly called the "Poultry Center of the World" also.

As we have almost 50 varieties to select from it should not be hard for you to make a choice. We are handling most of the popular breeds. If you send in an order for either poultry or eggs we will do our very best to please you.

We don't sell as cheap as some or as high as others, but we believe we are giving better value for the money than you can get anywhere else. We guarantee to send you good fresh eggs and that the eggs are fairly fertile. We don't guarantee a chick from every egg or that every chick will grow into a prize winner. If you get a poor hatch and we are to blame, we will duplicate infertile eggs for half price. If you are not satisfied with the stock we ship you, you can return it at once and we will refund your money, less express charges.

Send cash with order, and if anything is not exactly as we say it is, return it and get your money back. Isn't that fair?

BARRED PLYMOUTH ROCKS.

The Barred Plymouth Rocks are without doubt the most popular fowl in America today. They do well anywhere. They are hardy, grow rapidly, pullets lay early and they mature early and are a splendid table fowl.

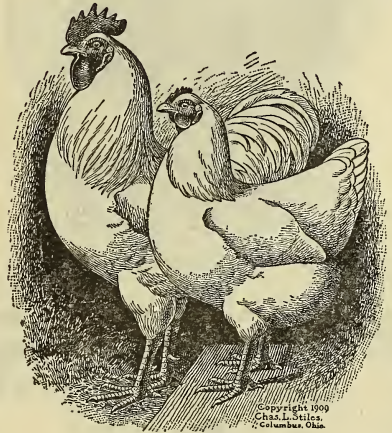

Show birds a matter of correspondence. We are very strong on Barred Rocks.

PRICE: Cocks and cockerels... \$2.00 to \$5.00
Hens and pullets... 1.50 to 4.00
Eggs: \$1.50 per 15; \$4.50 per 50;
\$8.00 per 100.

WHITE PLYMOUTH ROCKS.

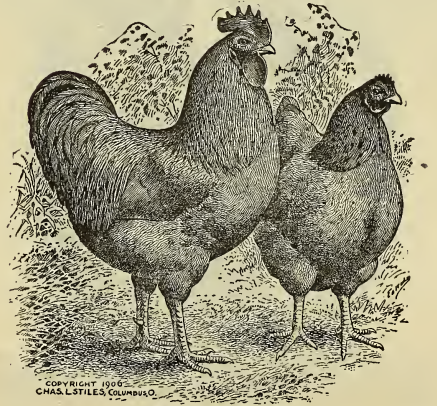

White Plymouth Rocks are just like Barred and Buffs with the exception of color, which is pure white. From the time of its introduction it came to the front very rapidly and today is one of the leading varieties.

Price of stock and eggs same as for Barred Plymouth Rocks.

Buff Plymouth Rocks

BUFF PLYMOUTH ROCKS.

The Buff Plymouth Rocks have the same shape as the Barred and the same characteristics, but are Buff in color.

We have some fine Buffs to offer. Some people prefer the Buff to the Barred on account of their color.

Price of stock and eggs same as for Barred Plymouth Rocks.

PARTRIDGE PLYMOUTH ROCKS.

Shape is the same as a Barred Rock and color is that of a Partridge Cochins.

PRICE: Cocks and cockerels...\$3.00 to \$5.00
Hens and pullets.... 2.00 to 4.00
Eggs: 15 for \$2.25; 50 for \$6.00.

COLUMBIAN PLYMOUTH ROCKS.

Shape is the same as Barred Rocks but color is like the Light Brahmans.

PRICE: Cocks and cockerels...\$3.00 to \$5.00
Hens and pullets.... 2.00 to 4.00
Eggs: 15 for \$2.25; 50 for \$6.00.

chicken raisers and there is a big demand for them. They are about a pound lighter than the Plymouth Rocks.

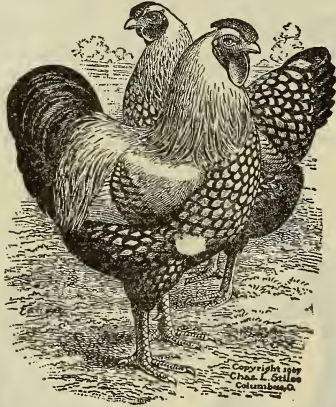

Prices for stock and eggs the same as for the Silver Wyandottes.

GOLDEN WYANDOTTES.

Golden Wyandottes are a very rich colored bird. They have rose combs, yellow skins and legs; they are splendid layers the year around; chicks are hardy, grow fast and mature early.

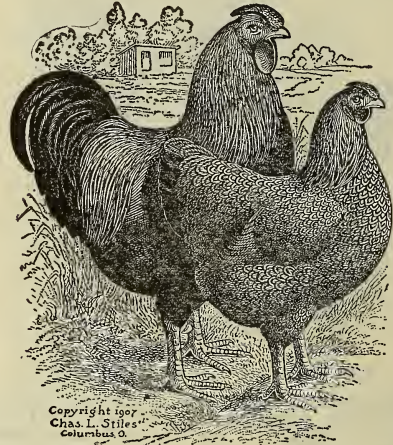

Prices for stock and eggs the same as for the Silver Wyandottes.

SILVER LACED WYANDOTTES.

Are sometimes called the beauty breed. They are hardy and mature early, good layers and, in fact, are all around good chickens.

PRICE: Cocks and cockerels...\$2.00 to \$5.00
Hens and pullets.... 1.50 to 4.00
Eggs: \$1.50 per 15; \$4.50 per 50; \$8.00 per 100.

Columbus, Ohio.

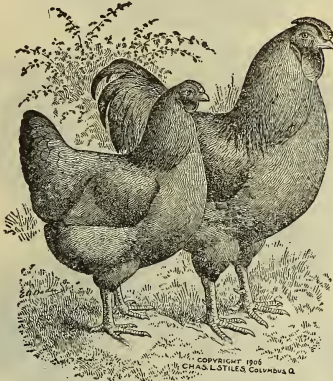

SINGLE COMB REDS.
(Rhode Island Reds.)

The Rhode Island Reds have become very popular in a very short time and they have lots of merit. They are one of the hardest fowls grown, are quick growers, mature early, pullets lay early and are great rustlers, and as a table fowl cannot be excelled.

Rhode Island Reds have a red plumage and are very beautiful.

PRICE: Cocks and cockerels... \$2.00 to \$5.00
Hens and pullets... 1.50 to \$3.50
Eggs: 15 for \$1.50; 50 for \$4.50;
100 for \$8.00.

ROSE COMB REDS.
(Rhode Island Reds.)

The same as S. C. R. I. Reds except these have rose combs.

Prices for stock and eggs the same as for Single Comb Reds.

LIGHT BRAHMAS.

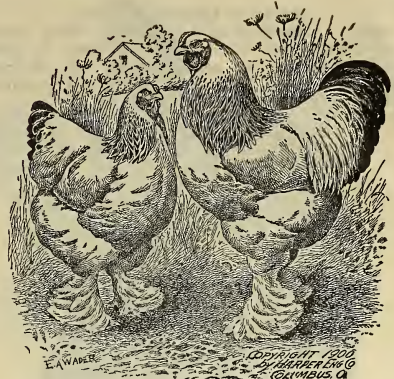

The Light Brahma is the largest fowl on earth and are a splendid chicken for town lot, as they stand confinement well.

PRICE: Cocks and cockerels... \$2.00 to \$5.00
Hens and pullets... 1.50 to 4.00
Eggs: 15 for \$2.00; 50 for \$5.00.

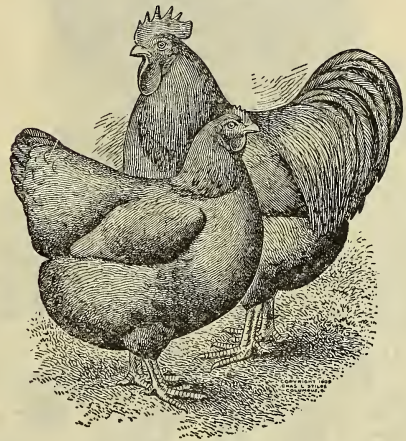

BUFF ORPINGTONS.

The Buff Orpingtons have become very popular in the last few years, and they are a good variety too. They have deep, full bodies, well rounded; quiet disposition and the females make fine mothers.

They have clean legs and they make a

Light Brahmas

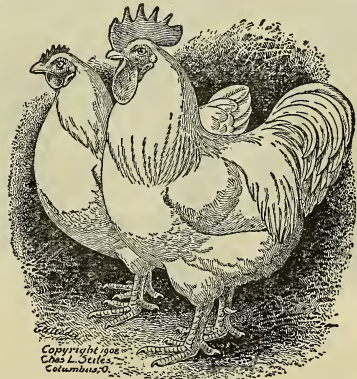

Buff Orpingtons

fine general purpose fowl. Buff Orpingtons have good weight and we have some very big, choice stock.

PRICE: Cocks and cockerels... \$2.00 to \$5.00
Hens and pullets... 1.50 to 3.00
Eggs: \$1.50 per 15; \$5.00 per 50;
\$8.00 per 100.

Eggs from Pen No. 1..... \$10.00 per 15
Eggs from Pen No. 2..... 5.00 per 15

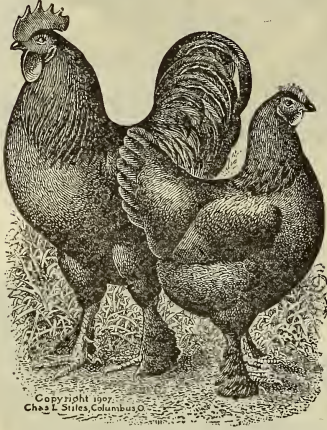

White Orpingtons

WHITE ORPINGTONS.

Same as Buff except in color. The White Orpingtons have been attracting a great deal of attention at some of our biggest poultry shows and they have commanded very high prices.

PRICE: Cocks and cockerels...\$2.00 to \$6.00
Hens and pullets... 1.50 to 5.00
Eggs: \$2.00 per 15; \$5.00 per 50;
\$9.00 per 100.

**BLACK LANGSHANS.**

The Black Langshan is a beautiful black, especially beautiful in the sunshine.

Langshans have single comb, are quite tall, loose feathered, large size, very active for a big chicken, feathers on their legs

and stand cold weather remarkably well. They are good winter layers.

PRICE: Cocks and cockerels...\$2.00 to \$5.00
Hens and pullets... 1.50 to 4.00
Eggs: \$1.50 per 15; \$4.50 per 50;
\$8.00 per 100.

WHITE LANGSHANS.

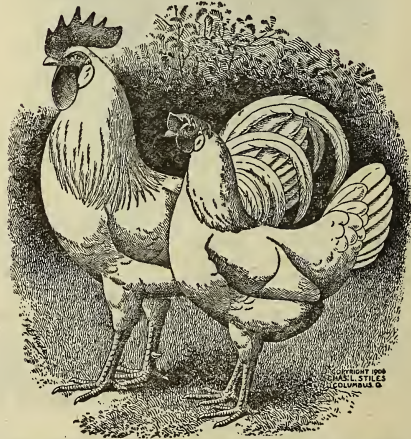

These fowls are very handsome. They are very hardy. They attain maturity quite early; are excellent setters and mothers. They have white flesh and skin. They are an excellent table fowl.

PRICE: Cocks and cockerels...\$2.00 to \$5.00
Hens and pullets... 1.50 to 4.00
Eggs: 15 for \$1.50; 50 for \$4.50.

**PARTRIDGE COCHINS.**

Are very hardy, easy to raise, very beautiful, stand confinement well; good layers and fine setters and mothers.

PRICE: Cocks and cockerels...\$2.00 to \$5.00
Hens and pullets... 1.50 to 4.00
Eggs: \$1.50 per 15; \$4.50 per 50;
\$8.00 per 100.

**SINGLE COMB WHITE LEGHORNS.**

The S. C. W. Leghorn belong to the Mediterranean Class. They are the largest of the Leghorn family and are regular

White Langshans

egg-machines. Some of the largest exclusive egg farms in the U. S. have only White Leghorns in their yards. They are not a large fowl.

PRICE: Cocks and cockerels...\$2.00 to \$5.00
Hens and pullets... 1.25 to 3.00
Eggs: 15 for \$1.50; \$4.50 for 50;
\$7.50 per 100.

ROSE COMB WHITE LEGHORNS.

The Rose Comb White Leghorn has the same characteristics as the S. C. White, except the comb, which is a rose comb.

Prices for stock and eggs the same as for Single Comb White Leghorns.

SINGLE COMB BROWN LEGHORNS.

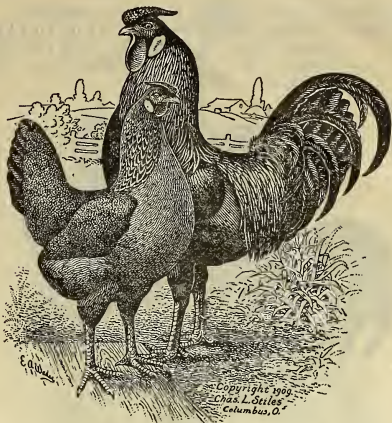

The Brown Leghorn is like the White, except in color. The Brown Leghorn is a very beautiful chicken and as a hustler, can't be beat, and the pullets begin laying at four months of age and if properly fed, will continue to lay all winter.

Prices for stock and eggs the same as for the Single Comb White Leghorns.

ROSE COMB BROWN LEGHORNS.

Same characteristics as the S. C. White Leghorns except the color.

Prices for stock and eggs the same as for the Single Comb White Leghorns.

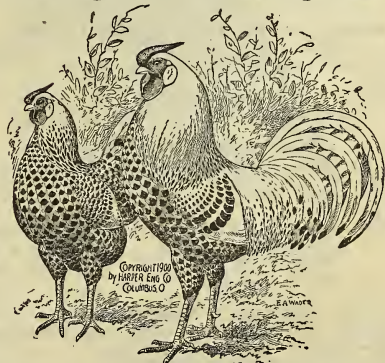

Rose Comb Brown Leghorns

SINGLE COMB BUFF LEGHORNS.

They are great layers, equal to any if not superior to most other varieties, and in size they rank with other Leghorns; they are small eaters and bear confinement well. Our stock is of the best strains in the country.

Prices for stock and eggs the same as for the Single Comb White Leghorns.

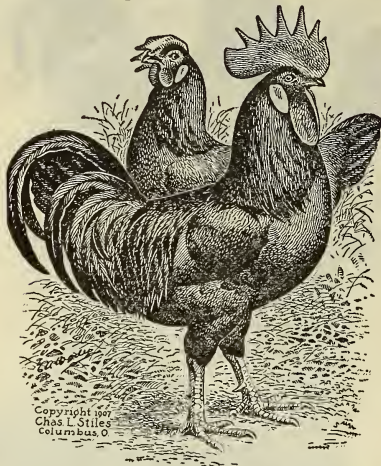

SILVER SPANGLED HAMBURG.

One of the most beautiful varieties in existence. Everybody admires them and

they are great layers but non-setters.

PRICE: Cocks and cockerels...\$2.00 to \$4.00
Hens and pullets... 1.50 to 3.00
Eggs: \$1.50 per 15; \$4.50 per 50;
\$8.00 per 100.

SINGLE COMB BLACK MINORCAS.

The plumage is a greenish metallic black in color. They have a large comb, white earlobes, legs a slate color. Larger than the Leghorns and they lay very large eggs.

PRICE: Cocks and cockerels...\$2.00 to \$5.00
Hens and pullets... 1.50 to 4.00
Eggs: \$1.50 per 15; \$4.50 per 50;
\$8.00 per 100.

ROSE COMB BLACK MINORCAS.

Are like the S. C. Black Minorcas except they have a rose comb and are preferred by some people on account of their low combs.

Prices for stock and eggs the same as the Single Comb Black Minorcas.

SINGLE COMB WHITE MINORCAS.

The White Minorca chicken has all the characteristics of the Black Minorca except color which is white. They are a handsome fowl.

PRICE: Cocks and cockerels...\$3.00 to \$5.00
Hens and pullets... 2.00 to 4.00
Eggs: \$2.50 per 15; \$7.00 per 50.

ROSE COMB WHITE MINORCAS.

Are like the Single Comb White Minorcas except that they have a rose comb.

Prices for stock and eggs the same as the Single Comb White Minorcas.

MOTTLED ANCONAS.

Color is a lustrous greenish black with about one feather in five tipped with white. They are great hustlers and good layers.

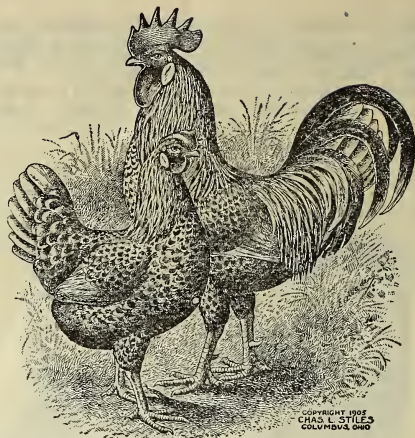

PRICE: Cocks and cockerels...\$2.00 to \$5.00
Hens and pullets... 1.50 to 4.00
Eggs: \$1.50 for 15; \$4.50 for 50;
\$8.00 per 100.

SILVER CAMPINES.

Prices of stock and eggs the same as Single Comb White Minorcas.

DARK CORNISH.

Prices of stock and eggs the same as White Minorcas.

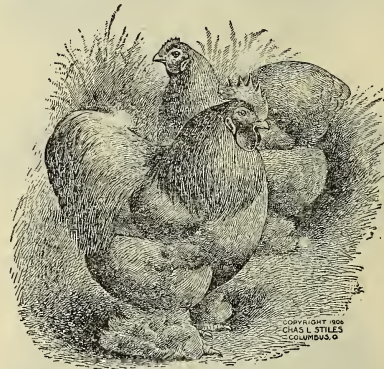

Mottled Anconas

HOUDANS.

We have a few cockerels to spare at \$3.00 each. Eggs at \$2.50 per 15.

BLUE ANDALUSIANS.

We usually have a few cockerels to offer at around \$3.00 each and pullets at \$2.00 each. Eggs at \$2.50 per 15.

BUFF COCHIN BANTAMS.

We have only one breed of Bantams. The Buff Cochin are, we think, the most attractive of all Bantams, and because of their shape are much more pleasing to children. They are much tamer than any other bantams and are great pets.

Price: Cockerels \$2.25 each, hens \$1.50, pairs \$3.50. Eggs \$1.50 per 15.

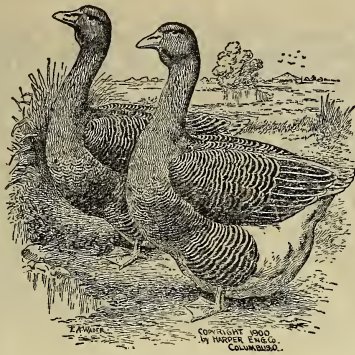

PEARL GUINEAS.

Guineas are of a wild disposition and their meat is equal to some of the best wild game. They are quite profitable.

Price: Cockerels \$2.00, hens \$1.75 each. Eggs 1.50 per 15.

WHITE AFRICAN GUINEAS.

Can furnish a few males and females and also eggs. Price same as Pearl Guineas.

TOULOUSE GEESSE.

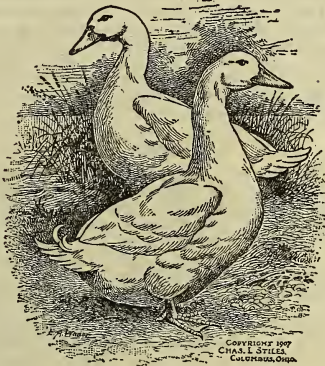

Are gray in surface color and under part of body a shade lighter. They are very large, sometimes weighing 25 pounds each. They are hardy, lay well and are easy to raise.

Prices: Single birds \$4.00; pairs \$7.50; trios \$11.00. Eggs \$2.50 per 7; \$4.50 per 14.

WHITE EMBDEN GEESSE.

This is a very profitable white goose to raise.

Prices for stock and eggs same as for Toulouse Geese.

PEKIN DUCKS.

The Pekin Duck is very popular and profitable.

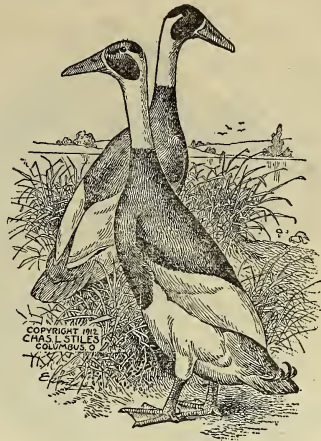

They are creamy white in color, are very deep bodied and grow very rapidly and are very easy to raise, as they are not subject to many of the diseases poultry is heir to.

Prices: Single bird \$3.00; pairs \$5.00; trios \$7.00. Eggs \$1.50 per 11; \$4.50 for 50.

INDIAN RUNNER DUCKS.

Are the Leghorns of the duck family. Fawn and white. Duck eggs are fine both for the table and for cooking, excel the hen egg in most cases, especially for scrambled eggs and custards. When it is possible to get an egg a day for weeks at a time we have a strong argument for raising more ducks. Their meat is very tender and juicy.

Prices for stock and eggs same as for Pekins.

Indian Runner Ducks

WHITE INDIAN RUNNER.

Ducks are like the fawn and white except that they are white in color.

Prices for stock and eggs same as for Pekins.

ROUEN DUCKS.

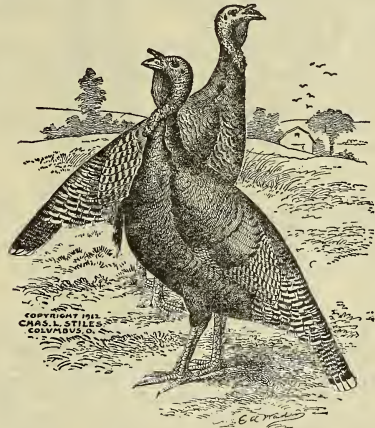

Are a very hardy breed and are considered one of the most profitable varieties.

Prices for stock and eggs same as for Pekins.

MUSCOVY DUCKS, (Colored.)

The Muscovy Ducks are one of the good varieties to have around. They don't make any noise and lay a large number of eggs. Stand confinement well.

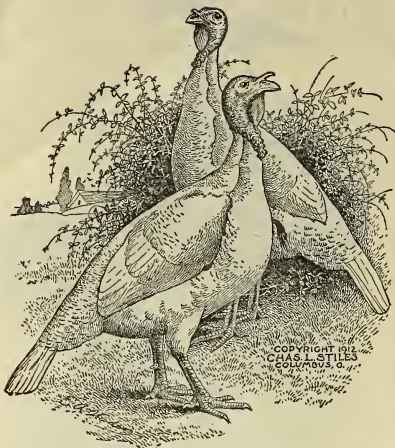

Prices for stock and eggs same as for Pekins.

MAMMOTH BRONZE TURKEYS.

The Bronze is the largest and most popular turkey. Their plumage is a rich metallic bronze. They are great layers, some laying as high as from 80 to 100 eggs in a season.

Prices: Toms \$7.50 to \$10.00 each; hens \$6.00 to \$7.50 each. Eggs 9 for \$3.00; 18 for \$5.00.

WHITE HOLLAND TURKEYS.

Here is the ideal turkey for those who have limited space. They seldom wander away from home.

Prices: Toms \$6.50 to \$8.50 each; hens \$5.00 to \$7.00 each Eggs 9 for \$3.00; 18 for \$5.00.

BOURBON RED TURKEY.

A new variety of Turkey that seems to take well.

Prices for stock and eggs the same as for the Mammoth Bronze.

CARNEAU PIGEONS. (Pronounced Car-No.)

We have added the Carneau pigeons to our list and we find them very interesting. The Carneau pigeon is probably the largest and most prolific pigeon known. They produce squabs that sometimes weigh a pound each.

They are red in color, splashed a little with white. The white splashes vary in size and amount. Sometimes a yellow or all red bird is produced. There is a big demand for Carneaus (pronounced Car-No) and we are pricing mated pairs at \$3.00.

Mated pairs, \$3.00.

CANARY BIRDS.

How would you like to have a nice Canary bird, a fine German Roller. Well you can get canaries this year from us. They are such nice pets. Can furnish either single birds or breeders.

Price, \$2.50 to \$10.00 per bird.

GERMIKIL.

We believe to be the greatest remedy in the world for roup, cholera, bowel trouble, sore head, white diarrhoea in fowls; cuts, sores, bruises, wounds, dandruff, itching, etc., for man; barb wire cuts, sore shoulders and necks, etc., for horses. Good alike for man, beast or fowl.

AS A PREVENTIVE OF ROUP.

And all poultry diseases dissolve a number of tablets of Germikil in a fruit jar of water and every day or two put enough of this solution in your chickens' drinking water to color it a claret wine red color, and your fowls will doctor themselves. We are practical poultrymen, having been in the business twenty-five years and we find

that Germikil is the best all around remedy on the market for roup, cholera, bowel trouble, cuts, burns, old sores, etc.

YOUR MONEY BACK if this remedy fails to do what we claim for it. Remember we guarantee each and every box. We honestly believe that if each and every poultry raiser would constantly use Germikil there would be very little disease in the poultry yard. And the nice thing about this remedy is that it is so little trouble to use it.

Don't wait until your fowls are sick for it is easier to prevent disease than to cure it. Always use Germikil to prevent all fowl troubles, for it is the best medicine in the world to keep chickens healthy, as it destroys the germs before they get into the system.

AS A CURE

Dissolve enough tablets in water so as to make the water a dark red color and apply the solution to the afflicted parts.

If hands are stained when applying a strong solution of Germikil **DON'T** use soap to remove the stains. Use a weak solution of oxalic acid or just lemon juice to remove stains. Don't use any other remedies in connection with Germikil. We have lots of satisfied customers of Germikil and we know that **YOU** can get results by using Germikil.

Germikil has been used three years at the Nebraska State Fair in the poultry department and two years at the Nebraska State Poultry Show and the secretary of both says the results have been good.

Keep a box on hand all the time.

Results are what you are after and the judicious use of Germikil will help you. The price of Germikil is only 50c a box postpaid anywhere.

PRIZES.

We have so many satisfied users of Germikil and so many fine testimonials and we appreciate the many fine letters; but we would like some poetry on Germikil, about 4 lines and we are willing to pay for it. All we ask is that you are a user of Germikil and send in your little four line poem before April 1st, 1917 and for the best we will give 4 boxes of Germikil free; 2d best 2 boxes Germikil free; 3d best 1 box Germikil free; 50 next best, 5 pkts garden seed free. Post paid.

IZE HEALING AND ANTISEPTIC POWDER.

For sore necks and shoulders on horses

When spring work begins there is always more or less trouble with sore necks and shoulders on the work horses. We believe that Ize Healing Powder dusted on the sore spots will heal them while the horses are at work.

Just clean sore spot with soap and water and dust with this powder. The price is 50 cents per box, post paid. Easy to use, as top of box is perforated.

IZE LICE OINTMENT.

Kills Lice, Nits and Mites on Poultry. It is a poison.

Take a small piece the size of a pea and rub well in under the vent, back of the head and under the wings and it will keep your poultry free from lice and nits for six months or a year. Try a box. It only costs 50 cents. Enough for 100 hens. Cannot be sent by mail.

IZE CANADIAN HORSE COLIC REMEDY.

Every owner of horses should have some reliable remedy on hand for horse colic. One season we lost two horses with horse colic and when the third horse had an attack we called in a veterinarian who happened to be a Canadian and he fixed up some medicine for us to give to the sick animal and after we gave three doses the horse was well. We have never been without this colic remedy since. Put 25 or 30 drops of Ize Canadian Horse Colic Remedy on a half tablespoonful of sugar and put sugar and medicine on back part of horse's tongue. Give every hour till horse is well. Price \$1.00 per bottle. You can't afford to be without it.

IZE RAT EXTERMINATOR.

Rats and mice are without a doubt one of the worst pests that mankind has to contend with. There are lots of rat killing poisons on the market and we have tried lots of them but we never could get rats to take kindly to most poisons until we run across Ize Rat Exterminator. It is easy to use. Sprinkle some of the rat exterminator on some raw liver or meat cut in small pieces and put where rats or mice can get it. Repeat in 10 days or two weeks. Cannot be sent by mail. \$1.00 per box.

INTRODUCTORY AND COMBINATION OFFER.

As some of our remedies cannot be sent by mail (being poison) they must be sent by express. The express charges would be too high on any one article so we will make you a special price and prepay the express. We want you to try them.

- 2 boxes Ize Germikil.....\$1.00
- 2 boxes Ize Healing Powder..... 1.00
- 2 boxes Ize Lice Ointment..... 1.00
- 1 box Ize Rat Exterminator..... 1.00
- 1 bottle Ize Canadian Horse Colic Remedy 1.00

\$5.00

Sent us \$3.85 and we will send the above and prepay the express. Yes and we will throw in a Dollar Razor Hone Free. Big Value.

CARBOLA.

Carbola is a disinfecting Germ-Killing White Mineral paint which we use in our poultry houses instead of whitewash. Can be put on with a brush or sprayer. A gallon of water added to one pound of Carbola makes a paint that will cover 250 square feet of space. 10 lbs. cost \$1.00 f.o.b. Blair. Is not caustic or poisonous but destroys mites and disease germs in poultry houses. As a paint and disinfectant for dairies, barns, hog pens, cellars and outbuildings it cannot be excelled.

Recommended by agricultural colleges. Prices, f.o.b. Blair, Neb.:

- 10 lbs. (makes 10 gallons).....\$1.00
- 20 lbs. (makes 20 gallons)..... 2.00
- 50 lbs. (makes 50 gallons)..... 4.00

BUG DEATH.

Bug Death kills bugs, but is not poisonous. Here is an insecticide that kills bugs but does not harm the plant or vine. Bug death is not poisonous to human beings but it sure gets the bugs, etc., on Potatoes, Tomatoes, Cabbages, Currants, Melons, Beets and all other vegetables.

Price 15 cents a lb., 5 lbs. for 50 cents, 10 lbs. for a dollar.

MEDICATED NEST EGGS.

Price 5 cents each; 40 cents per dozen, postpaid.

HAND SEEDER

A hand seeder always comes in handy

and we are offering the Cyclone Hand Seeder for \$1.50 each.

Silverware For the Ladies

Every lady likes nice silverware, and we have selected the above design (King George), which we think is very pretty. These spoons are guaranteed Silver Plate on 18% Nickel Silver and will wear a lifetime with reasonable treatment. Price, \$1.34 per dozen.

Resurrection Plant

The Resurrection plant is a rare and curious plant. It will grow if roots are placed in a pan of water and when taken out it curls up and goes to sleep, and when placed in water they grow again. Price, 15 cents each, 2 for 25 cents, postpaid.

Leg Bands

Mark your chickens with Leg Bands. We have them in Aluminum and Celluloid.

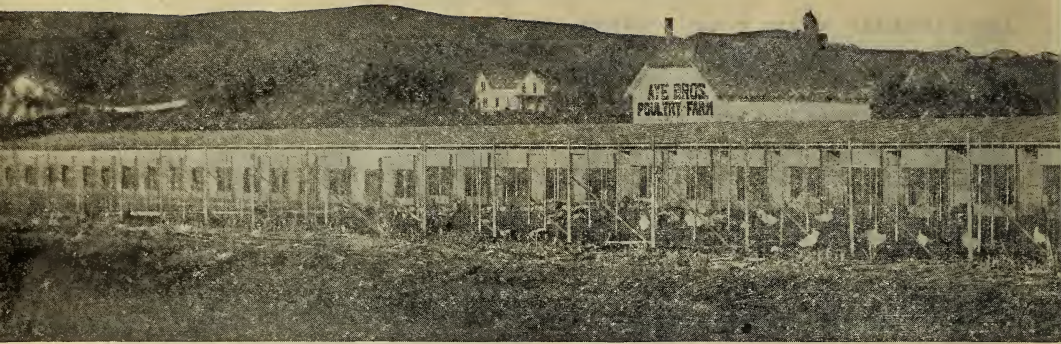

The Aluminum band is for grown chickens and is adjustable. They are numbered and numbers are clear and distinct. Prices: Prepaid by mail: 12 for 15c; 25 for 25c.

We have the Celluloid leg band in 8 colors for grown chickens and half grown chicks.

Prices for bands for grown chickens, 12 for 25c; 25 for 50c.

Prices for bands for half grown chicks, 12 for 25c; 25 for 40c.

Prices for bands for baby chicks, 12 for 20c; 25 for 35c.
